COLLECTOR COINS HOT PROPERTY IN ILLINOIS

DEMAND INCREASES FOR DWINDLING SUPPLY

The Market in Depth

Most of the dealers that we converse with on a regular basis believe that the rare coin market is very strong for select coins primarily because the collector demand remains so powerful. Accordingly they also have many customers anxiously waiting to buy the coins that they need for their collections. Of course today's enthusiasts are more meticulous about the quality but that is a direct relationship of one's increasing knowledge about their specific area of interest. This newer breed has been privy to the many years of experience, expertise, and knowledge of dealers. Personal guidance along with numerous educational materials in various media formats has helped collectors decide what strategy they need to utilize while buying and selling. These reference works describe the potentially advantageous conditions such as strike, eye appeal and "look" that they need to obtain. They also direct them to stay clear of other problem areas such as a multitude of artificial enhancements which are becoming much more difficult to detect. Greater access to current and past prices realized at auction along with current and past wholesale Bids should be useful in identifying changes in market direction. Population reports aid in the rarity factor as buyers' step-in. Third party authenticated, graded and encapsulated coins also provide them with an additional cushion of security. Armed with this much material, both the novice and veteran collector should feel very comfortable committing aggressive funds to select rare coins. It is precisely this type of continuous schooling that should prove to be rewarding as time goes on.

Better dates, not only the keys, of the Liberty Seated and Barber series are currently enjoying strong demand. Eye appeal remains as one of the most important factors. Attractive Liberty Seated and Barber Type are also giving dealers some fits as this material is not as readily available to them. Often, when some of these coveted coins hit the auction block or are found on the bourse at shows, a "feeding frenzy" can occur as prices move aggressively higher. The Bust coinage of many series is also high on this list of coins that are receiving enormous demand today. Early material in Circ and Mint State grades that are found in no-problem condition are being snapped-up at an alarming rate. These coins are quickly disappearing into collections, sometimes taken off the market for several years. This activity only adds to the problem for those still looking to buy. Many of these collector coins will be in hot pursuit by dealers attending the MidAmerica Coin Expo and auction in Rosemont, Illinois (all ready in progress). Competition is expected to be aggressive as dealers and collectors do battle for some prizes that are in short supply. Consequently dealers are prepared to duel for their second and third choice if they fail on their primary target. The show may receive a little boost if Gold and Silver are able to maintain their recently achieved momentum with Gold trading near \$660 per ounce and Silver above \$13.20. Dealers understand that, psychologically, the metal's activity can play a significant role in the show's outcome.

This Week's Market

MERCURY DIMES: Mercs have yet to heat up this early summer season though ongoing collector enthusiasm is keeping things warm. Most scarce and popular semi-key dates are on the receiving end of much attention not only in Mint State but in pleasing Circ grades as well.

WALKING LIBERTY HALVES: Early rarities always seem to maintain an avid following here. Yet with the propensity of demand shadowing the majority from 1935 on in Choice thru Gem the renewed interest in this corner is a welcome sight indeed.

DOLLARS: Although a smattering of modest set backs are spotted within some earlier issues, Morgans still hold a captive audience. As the popular 1890S pushes to a \$700 Bid in Gem we also observe that the broad-base support targeting the 1895S is still in check. Hard to find VF and XF examples are now needed at \$525 and \$775 respectively. Numerous awe inspiring DMPLs are raising a ruckus once again as higher Bids chase these desirable low population dazzlers. Peace Dollars are quietly catering to increased demand as the majority in Choice and better have waiting homes at or near Bid.

PROOF SETS AND MINT SETS: Mint Sets are the gracious recipients of strong attention as virtually all issues from 1959 to date reveal visible suitors at present levels. Proof Sets attempt to keep their momentum going too, yet come up nearly a wash as modest gains look to offset minor losses.

COMMEMORATIVES: This proud and historic arena always seems to be the fall guy. As dealers look to generate quick funds, many Classic Silver Commems are the coins of choice to satisfy their immediate shortcomings. Bargain hunters be on alert as some attractive values could be found here as well as within the Classic Gold ensemble as further price reductions in that corner may entice some from the sidelines. Oblivious to these recent rollbacks the escapades continue for Booker T Washington and Washington Carver Sets as buyers raise the action for many in AU-MS64.

TYPE: This far-reaching market segment remains a formidable stumbling block as many dealers are still searching high and low for suitable Type to fulfill outstanding want lists. Now with more competition vying for problem-free examples it becomes even more of a challenge. Add to the equation that just about all early Silver Flowing Hair and Bust Material is raging in Circ through Gem and the hunt for these elusive prizes could generate some early fireworks.

GOLD: As the Gold spotlight searches for a comfort zone some savvy buyers are taking another look at various examples in Gem. As eight better Gold Type issues are beaming with gallant efforts we also observe a concerted call for all Gold Dollar Types in various Mint State offerings as the tough Type II tops \$7,700 in MS63.

The weekly COIN DEALER newsletter (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight–seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight–unseen** market, which already include consideration of certification costs. Bids for a **sight–seen** "raw" coin may be higher or lower than for a **sight–unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

ATTRACTIVE COINS SCARCE AT MIDAMERICA SHOW

PRESTERA AUCTION HITS \$5.2 MILLION

The Market in Depth

Summer has begun, but dealers seem to have little time for vacation as coin shows and auctions continue to dominate the numismatic landscape. Last week, the MidAmerica Coin Expo in Rosemont, Illinois, was held, and did **not** live up to expectations. Yes, it is a regional show in a rich collector area, but strong competition exists from other shows. A case in point is the Baltimore Coin and Currency Convention in Maryland, scheduled for June 29-July 1. The Baltimore show is significantly larger than MidAmerica, so several dealers skipped it in favor of attending the Baltimore Expo. According to one dealer, attendance at MidAmerica was "down quite a bit" from last year. Consequently, there seemed to be fewer dealers and collectors walking the Chicago area bourse. Some dealers have been complaining that there are just too many shows scheduled, which is tough to manage. It was disappointing for some at MidAmerica because they weren't able to find enough "original" coins to buy. Some dealers went there without their inventory, just to focus on buying. Another said he was trying to buy "anything that's pretty and correctly graded" for his customers. One area experiencing strong demand by sophisticated collectors is Type, which is very difficult to find now. Dealers with increasing demand from such customers would love to purchase an attractive Arrows & Rays Quarter, a Gem No Motto Liberty Seated Half Dollar, or even an original Small Size or Large Size Bust Quarter in MS64. Several customers are waiting patiently for any of this material to come their way. Unfortunately, none were available in Chicago. Of course there were some dealers who came away from Illinois completing a moderately successful show. These dealers succeeded by selling **generic** coins at current levels. Precious metals held up fairly well during the show, so dealers were able to move some Gold and Silver too. Some said it is getting more difficult to locate "attractive and original" generic MS65 and MS66 \$20 Saint-Gaudens. However, the recent downturn in Spot may in turn loosen the hold on some of these beauties. Naturally, dealers have higher expectations as they head east for the Baltimore Expo. While they know that finding attractive, original coins in this market is going to be tough, they remain optimistic because current demand for nice coins is just fantastic. The hope is that some of these coins appear on the bourse in Baltimore so customers won't be disappointed for a second straight week. The June 2007

Baltimore Auction by Bowers and Merena will also take place June 28-29.

The Dr. Tory Prestera collection realized \$5,247,975 June 20-21. Stack's held the sale in conjunction with the MidAmerica show. We have listed some of the Session Two highlights.

This Week's Market

CENTS THRU HALVES: As summer heats up, buyers remain fascinated by early Copper. Once again, decisively strong activity is chasing nearly 2 dozen Lincolns from 1934 on as the popular 1952S leads the way with a \$300 Bid. A handful of Jefferson Nickels scurry higher, and late date Kennedy Halves also sustain modest advances. Yet as Spot Silver slides, so do most of the bullion sensitive.

MERCURY DIMES: Although no advances are noted in Ms. Winged Liberty's corner, many supporting Bids are still flourishing for the keys and scarcer dates. Yet as enthusiastic collectors and dealers vie for prime time examples, perhaps now would be a good time to shift their attention and secure some late date eye appealing Fully Banded material as buyer support continues to slip away, leaving the door wide open for some potential bargains.

WALKING LIBERTY HALVES: Walkers continue to make some attractive music with buyers. This report we observe a quartet from the 40's scaling higher. Those on the move include the scarcer in high grade 1940S advancing to the tune of a \$290 offer in Gem as well as the flagship of the short-set, 1941S claiming \$820 in like grade.

DOLLARS: Morgans maintain momentum as a half dozen scarcer entries are each looking for new homes at higher levels in Gem. On the receiving end of this shrewd flurry, we note motivated Bid increases attempting to corral the 1882O as this tougher Cajun entry becomes acquainted with an \$800 offer. The usually attractive 1885S achieves \$1,300, and the popular 1902S drives \$100 higher. DMPLs don't disappoint as several continue to shine with modest advances moving them up a rung or two. Generic MS64 examples are also enjoying a slight elevation. Peace Dollars confirm solid demand as buyers are in queue at current levels.

PROOF SETS AND MINT SETS: Proof Sets are reflecting the positive influence of calculating buyers as a handful of moderately priced issues are each rewarded with a slight advance. These exquisitely detailed, attractively priced offerings will certainly make great acquisitions for those collectors looking to get their feet wet in this corner. As things continue to get warm here, Mint Sets are quietly soaking in much visible support as well.

COMMEMORATIVES: Albeit for self preservation and to generate revenue, dealers continue to do their part for the numismatic environment by recycling many of the more easy-to-find Classic Silver issues. Other than those branded elite, such as the rare and massive Pan-Pac slug duo, the 11-piece Classic Gold ensemble is still an enigma at best, waiting for the mystery to be solved.

TYPE: Dealers remain on the prowl, hunting for exact want list fits for the legions of voracious collectors. Now in addition to their ongoing quest to conquer high grade problem-free examples, we find dealers scratching their heads, putting out the call, and raising the ante for various low-end Circ Half Cent Types as well as the popular and short-lived 20c pieces.

GOLD: As the summer doldrums seem to have come early, some Gold pundits are finding themselves in a quandary. Yet as Gold Spot drifts further back, the summer malaise hasn't gotten the better of some scarcer players. With over a dozen grading MS62-MS65 awash with higher Bids, the positive scenario for better Gold Type continues.

Disclaimer: Dealer's use of this coin market monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified by other services.

The weekly COIN DEALER newsletter (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. **INVESTOR/COLLECTOR NOTE:** The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services such as PCGS, NCI, ANACS, NGC, and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose bid is represented within. Therefore, a specific coin could be worth more or less than the listed Bid price. For Bid prices of coins certified by ANACS, NCI, PCGS and NGC please refer to the *Certified Coin Dealer* newsletter.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Kennedy series, some of the rolls in the late 50's tend to be dark—these bring lower prices. "gem, full steps" rolls (when available) bring higher prices. In the Mercury series "gem full bands" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or "put together" bring lower prices. Lower dollar strike Walker, Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN.

TYPE, KEYS & PROOF GOLD IN DEMAND B&M SALE REALIZES OVER \$4.36 MILLION

The Market in Depth

Those dealers in attendance for the Baltimore Coin & Currency Convention June 29-July 1 are generally satisfied with their results. Some did tell us, though, that the show was not quite as good as had been expected. Reasons vary, but proximity to the 4th of July holiday, summertime vacations and weather related problems causing canceled flights are near the top of the list. They also agreed that the overall public attendance was rather light. Still, one dealer said that he observed some periods of hectic activity on the bourse during one stretch on Friday afternoon where he heard that familiar "buzz" that signifies a strong market. Unfortunately, that robust activity was short-lived. Some said that retail transactions were very light — as the usual strong public attendance was, for the most part, absent. This lull at Baltimore most likely had more to do with the season than lack of overall demand. The story is definitely better when it comes to wholesale activity. We spoke with one dealer who had an excellent show, and said his wholesale business was very strong. While he was busy at his table and didn't have much time to buy, he did observe strong demand for collector coins which are readily selling at today's current levels. One dealer said that he was able to buy and sell approximately \$1 million dollars worth of rare coins in Maryland. The hot areas of demand in Baltimore included the following: early Copper, Silver and Gold Type; Proof Gold; key dates of several series and any high-grade Type that looked interesting. One dealer paid \$65,000 for an NGC PR67 Cameo 1906 \$10 Liberty. He is extremely pleased with this purchase as it is among the finest known with none graded higher. Proof Gold \$2½ and \$5 Matte Indians were also sought-after. Dealers also noted that 1909-S VDB Lincoln Cents and 1877 Indian Head Cent keys were commanding strong demand and attention. Collectors are lining up to buy early Type material, which dealers are having some difficulty finding. Still, success can be had as one dealer told us that he witnessed the sale of an NGC MS61 1795 Dollar at Baltimore to another lucky dealer. A coup like this one is apt to make one's show. Another dealer specializing in collector coins was rather optimistic. He said that, based on recent show

activity, the latter half of the year should be fine. He thinks the market is firm even though much of the excitement of the past few years has dissipated.

The June 2007 Baltimore Auction by Bowers and Merena realized more than \$4.36 million June 28-29.

This Week's Market

MERCURY DIMES: Armed with far reaching desirability and affordability, Ms. Winged Liberty is still fashioning a resounding display of support near current levels.

WALKING LIBERTY HALVES: As active buyers continue to return to the fold, Walkers are beginning to break a sweat. With the accent firmly challenging later issues, we observe that the key to the extended short-set, 1938D, tops \$1,350 in Gem. The acknowledged key to the 41-47 short-set, 1941S rivals attention too, as MS65's are on the move again, claiming \$830.

DOLLARS: Excitement continues to brew here as several tougher entries are taking a hike. The popular 1883S hits the high road reeling in \$1,950 in Choice, followed up with a motivated \$3,350 offer in MS64. Scarce, yet underrated — 1887/6O is thriving in a pair of Mint State grades as MS63's claim \$1,900. PCGS and NGC have a combined population of only 304 in MS63 and only reveal but 99 specimens achieving a MS64 designation with none higher. The tough 1904S races to \$6,700 in Gem and with a combined PCGS/NGC brethren of 128, and only a scant 17 warranting a loftier grade within regular Mint State category. Over a dozen DMPLs keep their rally ongoing and generic Morgan Gems rebound to a higher \$114 Bid. Peace Dollars, though quiet, remain stocked with recruits at or near present levels.

PROOF SETS AND MINT SETS: As modest gains are negated by losses from a trio of late date issues, Proof Sets aren't exactly gleaming with action, but are still holding their own. Mint Sets aren't delivering any fireworks either, yet buyer confidence is still solid for most.

COMMEMORATIVES: Most Classic Silver Commems appear to be stabilizing, although a handful of high grade yet easily replaced issues relinquish modest turf. Several candidates remain in great demand though, such as the California Jubilee, and Lincoln. The latter certainly makes sense as coinciding with the fast approaching 200th anniversary of Lincoln's birth, any coins depicting the great emancipator are in demand as buyers scurry to assemble various theme sets. Classic Gold Commems aren't sending up any distress calls, as no rollbacks are noted and visible support is finally making its welcomed presence known. First Spouse half-ounce \$10 coins struck in 24kt Gold are making their debut with current Bids nearly 50% over issue price.

TYPE: Although only the popular Liberty Seated Dollars are rising in Circ, dealers continue to send up flares hoping to attract some desperately needed high-grade Type. Not surprisingly on the heels of the Baltimore show the penchant for early Federal Silver issues remains blistering hot as does the desire to secure virtually every problem-free Early Copper issue in all color combos.

GOLD: Now, not withstanding the bullion dependent, the trend targeting better Gold Type is still very much intact as over a dozen move higher in MS63 and better. Leading the way are \$5 Indians, taking a triple Bid jump in MS64-MS67, as the latter powers to \$53K.

The weekly COIN DEALER newsletter (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

INAUGURAL SUMMER FUN IN PROGRESS

HEATED DEMAND REMAINS INTACT

The Market in Depth

Baseball manages to get a break in July, and so do coin dealers as several are using this month as an opportunity to escape and spend some well-earned time with their families. Not all are taking a summer respite, though, as many dealers remain active in July. Some will cleverly make a vacation out of attending an out-of-state show with their loved ones. It is clear that such participants are of the mind that forgoing these events may result in missing out on an incredible deal or individual rarity. Evidence of this current activity is particularly strong down south in West Palm Beach, Florida where dealers have already arrived to prepare for the *very first* Summer Florida United Numismatists Convention. Heritage will host a public auction in conjunction with the July 12-14 show. Dealers are acutely aware that Florida maintains a strong collector base as well as a significant dealer population. They also know the ongoing successes of the winter FUN conventions. Therefore, hopes are high for a new, prosperous show in a comparatively slow season, and dealers are certainly interested in making their presence known in the Sunshine State. Optimism is spurred further by the fact that the number of rare coins remaining on want lists is growing — an important indication that the bull rare coin market is intact. The challenge, of course, is keeping customers satisfied while waiting for the proper coins to surface. Collectors, like all of us, change their minds regarding what they want, or perhaps their needs have been filled by another dealer. Maintaining tight client contact is crucial in order to avoid losing a sale or purchasing material with nowhere to go with it. Some astute collectors will send money to their dealer, or dealers, in advance as a deposit or "bounty" on one or more coins that they need, essentially assuring that they will still be interested and get the first shot. One dealer told us that during the past month he was able to place with collectors two key, Mint State 1918/7-S Standing Liberty Quarters with **Full Head**, each priced in the mid five-figures. One collector was just beginning, but he was looking to buy "the tough ones first": the 1918/7-S and 1916. These collectors are absolutely thrilled with their purchases and happy these rarities are now a part of their collections. Of course, dealers are always looking to reload as their inventories wane. Searching for these want-list coins is an exciting opportunity and a major challenge that they will face in Florida. The competition on the bourse floor and in the auction room has been increasing as potential buyers do battle with one another hoping to come away with some important coins. Dealers delaying their vacations may very well have made a wise decision considering the increased action this month.

Following the Summer FUN show, Scotsman will conduct the Midwest Summer Coin Sale 2007 in St. Louis, July 27 during the Missouri Coin Festival. Some highlights are included.

This Week's Market

CENTS THRU HALVES: As early Copper buyers remain resolute, another handful of Lincolns is feeling the heat as the popular 1952S baby boomer edition rolls to \$320. Jefferson Nickels match the enthusiasm with several higher featuring a solid \$1,450 offer for the semi-key 1939S.

MERCURY DIMES: Sometimes what you don't see tells a lot. While no perceptible gains have been observed, a wealth of supporting Bids caters to "Ms. Winged Liberty's" circle. What isn't readily visible is that one well-known buyer is desperately searching for quantities of bright white, better date, Full Banded examples in the \$500 to \$20K category and is willing to pay over present Bid to secure them.

WALKING LIBERTY HALVES: Walkers are mocking the season as many semi-keys are heating up. Sometimes overlooked, the 1929D races to the \$2,300 level in Gem. With a little effort, a satisfying specimen from this 1st year of the Great Depression can be found as PCGS/NGC have confirmed 239 examples in MS65, but only 69 have been granted a loftier numeric standing. Adding fuel to the fire, the late date key duo of 1938D and 1941S each maintain momentum, climbing higher in Gem at \$1,400 and \$850 respectively. A handful of other coins from the resurgent short-set moves up the ladder too, as MS65 commoners take \$118 Bid.

DOLLARS: Morgans always have an abundant audience of enthusiasts, some well-established, others waiting to get on board. For their price, few entry-level coins carry the charisma that these century old Silver cartwheels possess. As broadening demand continues, we observe none are retreating here, and DMPLs mirror ongoing buyer bias as recent advances remain in check. Peace Dollars also maintain fortification as the scarcer 1934D claims \$1,400 in Gem.

PROOF SETS AND MINT SETS: A summer glow still envelopes most Proof Sets as a half dozen issues from 1992-1997 each move up a notch. Mint Sets are only posting one modest advance, yet the overall positive tenor is undeniable.

COMMEMORATIVES: As a pair of Washington Carver Sets incur increased buyer demand, most other Classic Silver issues have met resistance as sellers aren't as anxious to let these slices of numismatic Americana go out the door at bargain-basement levels. Classic Gold has also made a turn around as the liquidation chaos has all but vanished and visible buyer support is making a comeback.

TYPE: As collectors continue to clamor for quality Type material, dealers capitulate by raising the ante via higher Bids. Everything from Classic Head Large Cents through the short-lived 20¢ pieces are under a Bidding frenzy as buyers vie for these obsolete prizes. A closer look reveals coveted early federal Silver minors are the primary target though, as Flowing Hair and Draped Bust Half Dimes and Dimes will attest. Leading the onslaught, 1796/97 Draped Bust Small Eagle Dimes are on the rampage with escalating action chasing the little jewels in Circ through MS64, as the latter tops \$31K.

GOLD: While the yellow metal trades within its current comfort zone, the obvious desire to secure problem-free, higher grade Gold Type is unquestionable. As the propensity of demand makes chase to MS65 examples, the \$3 Princess continues to make a comeback, taking advantage of a generous \$13,200 Bid.

The weekly COIN DEALER newsletter (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark—these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or put together—bring lower prices. Gem full bands Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT; Mercury & Walker singles are in the CDN.

...a Friday morning report on the Coin Market

A HOT MARKET GREETSS FLORIDA FUN AUCTION CAPTURES \$8.7 MILLION

The Market in Depth

The thermometer indicates that temperatures have been rising across the country as summer takes hold in mid July. Fittingly enough, the Summer FUN show in West Palm Beach depicted a heated market, as many dealers in attendance found their results far exceeding their pre-show expectations. One Sunshine State dealer said, "It was a great show." Dealers told us the public attendance was more than sufficient, and some collectors brought coins with them to sell. Of course they were also trying to purchase interesting coins for their collections. One enthusiastic dealer told us he has a couple appointments this week to travel and see collections as a result of a collector meeting at the West Palm Beach event. The wholesale market in Florida was surprisingly very strong. Silver Dollars are the subject of significant interest. Cartwheels boasting rarity and quality are receiving exceptional Bids. **Small** Denomination Gold Type appeared to be a hot item at the show, too. Dealers are looking to buy certified MS61 thru MS64 Gold Dollars, Type I and Type III; \$2.50 Liberty and Indian; and \$5 Liberty and Indian examples. Early material is another area of the market that continues to outperform their high expectations. Attractive Liberty Seated and Bust material were highly sought after in Florida. One dealer said they are "very hot" right now. Buyers have lengthy want lists for these coins that are especially pleasing for the grade. Better date Gold, such as attractive Carson City, Dahlonega, Charlotte and New Orleans rarities, is also experiencing strong demand. Buyers are generally looking for coins that are well

struck and possess original surfaces. The strongest demand seems to be surrounding coins grading XF45 thru AU58. This seems wise as Mint State examples are not readily available and cost considerably more. The overall success seen at FUN has given quite a boost to dealers' expectations for the American Numismatic Association's World's Fair of Money, August 8-12 in Milwaukee. The Summer F.U.N. Coin Auction by Heritage realized more than \$8.7 million July 12-13 in West Palm Beach, Florida. We have listed a few of the many highlights. Superior will host the Milwaukee Elite Auction August 3 in Wisconsin. Here are just some of the many highlights.

This Week's Market

MERCURY DIMES: Presently, Merces aren't a voracious lot. As the summer wears on, they could probably benefit from a little spark to pull them out of the doldrums as many late date and Full Banded commoners in high grade remain in abundance looking for homes. Certainly, it won't take much effort to turn things about as visible Bidders are still making their presence known when it comes to securing desired rarities such as the 1916D, both 1921 issues or the 1942/1 overdates at or close to current Bid levels.

WALKING LIBERTY HALVES: The summer heat continues to envelope these beautiful renderings of Ms. Liberty. As a trio from the revitalized Short Set are taking center stage, we observe the 1941, 1941D and 1945D are all playing tune to higher levels in Gem.

DOLLARS: Morgans are seen driving higher as intense interest has found several scarcer San Francisco issues. The tough and popular 1883S leads the flurry, as an imposing \$2,200 Bid advance chases this perhaps underrated coin to an impressive \$18,200 Bid in Gem. A posse is probably forming now attempting to corral this tough western delivery: a combined PCGS/NGC population conveys a mere 29 examples within this designation with just 6 achieving loftier numeric enrichment. DMPLs don't disappoint as a dozen disciples sparkle with solid gains. Peace Dollars remain tranquil as stability and buyer bias remains.

PROOF SETS AND MINT SETS: Optimism and buyers' involvement prevail as both factions are soaking in some concerted interest this summer season. Though quiet on the electronic networks this report, supporting Bids are in the majority, and no dissenters are noted.

COMMEMORATIVES: As sellers have seen nearly all of their bargain surplus dry up under the summer heat, Classic Silver Commems are finally enjoying a bit of controlled enthusiasm. Classic Gold appears poised for a bit of a run, too, as buyers are beginning to test the more tranquil waters within the 11-piece ensemble.

TYPE: Regardless of the season, Type seems to be the hot spot as dealers put out the fervent call to pry some want list items out of hiding. Everything from Half Cents through Silver Dollars is needed. Buyers are finding that Quality Circ material is sometimes as hard to find as Mint State wonder coins! Higher Bids are their play as they look to capture Liberty Seated Dollars in Circ and the popular Trade Dollars as MS60 examples top \$750. Proof Type is a challenge, too, as pleasing PR65 Liberty Seated Halves with Motto claim \$2,500.

GOLD: As Gold traverses to slightly elevated ground, Small Denomination Gold Type takes the cue several steps beyond. Take a look below as all Gold Dollar Types accelerate in multiple Bid jumps. Leading the surge, Type III Princesses are charging in Circ through Gem. Speaking of Gem, observe the continued buyer blitz targeting just about all other MS65 Gold Type as demand pushes a multitude even higher.

The weekly COIN DEALER newsletter (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified sight-unseen market, which already include consideration of certification costs. Bids for a sight-seen "raw" which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

COMMEMORATIVES

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCGS, NCI, ANACS, NGC, and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose bid is represented within. Therefore, a specific coin could be worth more or less than the listed Bid price. For listed Bid prices of coins certified by ANACS, NCI, PCGS, and NGC, please refer to the Certified Coin Dealer newsletter.

DO IT FOR THE MONEY!

But You'll Come Back Because Of Our Service, Knowledge, and Integrity

Spectrum Numismatics was formed in 1991 with a unique vision. Spectrum's vision was to be a coin company with world-class rare coin experts, unlimited cash resources, and a loyal customer base. Spectrum knew the way to keep people coming back time and time again was to treat them fairly, service them efficiently, and pay them the most money for their coins.

Money and skill are probably why people come to Spectrum in the first place. But our service and integrity are why they come back again and again and again.....

Why does Spectrum pay more than any other dealer for U.S. rare coins? What's the catch? There's actually no catch at all – it's just a wise business decision. Spectrum is one of the largest coin dealerships in the world and has lots of coin hungry clients. Spectrum literally must either buy your coins or lose its clients. That's why Spectrum will pay outrageously high prices for your coins and that's why they make it so easy for you to get the cash.

The time to get the cash is now. Call Spectrum with assurance and let us help you realize the most money for your coins. Give us an opportunity to serve you by calling toll-free 888.828.2646. Call Spectrum today.

STRONG SUMMER DEMAND CONTINUES

GOLD SWINGS HIGHER

The Market in Depth

The rare coin market is shining this month, as has been the case for the first half of 2007. Dealers continue to be optimistic, and we have been hearing about the current strength from numerous sources in the numismatic community. In a usually slow season, this summer has been anything but sleepy, with a new Summer FUN show being a success, and millions of dollars changing hands at numerous auctions. One dealer in particular told us his wholesale business over the past several weeks had far exceeded his expectations. Certainly, those dealers who accept the current levels are capable of actively buying and selling, creating turnover and garnering fresh material. Those who hold on too long, waiting for that home run, may miss the boat. Dealers in tune with their customers know what they are willing to pay, and are then likely to Bid more aggressively at public auction and more confidently at shows. Newly purchased material is exactly what is needed for those planning on traveling to Milwaukee, Wisconsin for the American Numismatic Association's World's Fair of Money, August 8-12.

Morgan Dollars remain strong and actively traded as they have been for some time, with dealers buying a wide range of dates. Of course, those slightly better and semi-key issues which have a low population-to-price ratio are especially in demand, offering excellent value and potential. Customers, both wholesale and retail, are anxiously awaiting this material. One dealer shared with us a few of his recent July purchases of better date Morgans, which include: three 1904S in various Mint State grades; several Mint State "CC" issues and two 1895S, one in MS65, another in MS64. The 1895S is at its highest Bid in nearly a decade, with the MS64 example having climbed over 75% since October of 1997. In MS65 Bid has jumped over 23% in the same period of time. In addition to the ever-popular Cartwheels, Gold has been very hot in July. Buyers are looking to pick up the lower mintage examples in problem-free condition with some degree of eye appeal. Indeed, high-grade Gold Type has been showing plentiful increases for the past two months. This segment of the market is heating up as Gold Spot continues to climb, surpassing the \$680 benchmark. On a somewhat cooler note, Early Gold, while still attracting serious buyers, is believed to be fully priced at current levels. The bottom line on Early Gold is that it remains very popular, although prices have leveled off somewhat. Classic Gold Commemoratives are beginning to find buyers at today's reduced levels. This is precisely what value seekers are looking to find. They check out an area of the market that has declined and evaluate its potential at the new, lower levels.

Today's high demand for rare coins will no doubt be in play in St. Charles, Missouri for the 47th Annual Coin Festival and Scotsman auction, July 27-29. Dealers will surely be looking to take advantage of the opportunity to freshen up their inventories while at this show. We look forward to bringing you the results next week.

This Week's Market

CENTS THRU HALVES: Lincolns rival the season as these early Coppers from 1934-1942 remain red hot. Early Washington Quarters are surging ahead as 1935 rolls capture a \$1,200 Bid.

MERCURY DIMES: Although no outpourings of new advances are present, Ms. Winged Liberty's formidable entourage maintains measurable muscle. This silent strength may escalate to include some fireworks soon though. As dealers and collectors collide at the upcoming ANA festivities, both will remain vigilant within their budgets, but will certainly be flexible, willing to raise the Bidding bar to secure top quality, fully-struck frosty examples as they battle on the bourse and auction venues.

WALKING LIBERTY HALVES: Most Walkers maintain a supportive bandwagon. Yet a handful, primarily from the short-set, are experiencing a few bumps on the road to prosperity, surrendering modest turf. Attempting to rectify this, the 1941 Philly issues register a gain in MS65 to \$150, helping to get things back on track.

DOLLARS: Although several better-dated Morgans are peeling off some immediate support, we note tactical Bidding strategies to secure some tougher entries. In an attempt to snare the scarce 1891O, a sizable advance has pushed Gems to \$5,800. Knowledgeable buyers are aware that this coin is a prize and underrated in anything that resembles a full strike. A trio of San Francisco players is also feeling the heat as the 1891, 1902 and 1904 take to higher elevations in MS65. A rhapsody of moderate gains showers down on DMPLs with over 3 dozen dazzlers climbing higher and generic MS64s edging up a notch. Peace Dollars relish continued buyer involvement but are not mustering any advances.

PROOF SETS AND MINT SETS: Although several later date Proof issues are marginally lower, enthusiastic Bidders haven't wilted as a train of positive buyer momentum is visible. Mint Sets, too, are keeping up appearances with sustained buyers' bias.

COMMEMORATIVES: Being cognizant that high-grade Classic Silver and Gold Commems will be available when inventories wane or collectors' cries are heard, dealers have drawn the line in the sand. The immediate need for cash prior to the ANA and its related hullabaloo has necessitated them to pull out the stops once more. This time, the summer wind may have indeed blown ample offerings the way of bargain hunters. These lower levels for many in Gem and better may entice some calculating buyers from the sidelines, and due diligence may ferret out some quality examples at equally attractive prices.

TYPE: Under the blistering heat of the season, Type emerges red hot. The most dynamic player is not a surprise, as early Silver Type is on a rampage. Surging ahead, both Capped Bust Quarter Types are in great demand, each thundering along with an impressive triple Bid jump in MS63-MS65 as the latter finds both sporting an impressive \$1,000 advance. Proof Type rivals attention as sundry Liberty Seated Dimes roll higher.

GOLD: As the yellow metal strides higher, a plethora of plus signs envelopes nearly all below. Yet as action escalates, the propensity of demand is still most abundant for better Gold Type, primarily in the MS63-MS65 columns, as dealers crave golden buttery examples that are spot free.

The weekly COIN DEALER newsletter (the *Greysheet*) reports the national Dealer–to–Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight–seen. The coins may be certified or “raw” (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight–unseen** market, which already include consideration of certification costs. Bids for a **sight–seen** “raw” coin may be higher or lower than for a **sight–unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer to–Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

SILVER COMMEMORATIVES

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins by other dealers or grading services, such as PCGS, NCI, ANACS, NGC, and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose bid is represented within. Therefore, a specific coin could be worth more or less than the listed Bid price. Bid prices of coins certified by ANACS, NCI, PCGS, and NGC, please refer to the Certified Coin Dealer newsletter.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark—these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—our or put together—bring lower prices. Gem full strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN.

. . .a Friday morning report on the Coin Market

MILWAUKEE ANA ON TAP

BARBER DIME DROPS FOR \$1.9 MILLION

The Market in Depth

The American Numismatic Association's World's Fair of Money is dominating dealers' attention early this month. Bidding on the electronic trading networks may be somewhat inhibited as dealers look to preserve their liquidity for the important auctions and "big" show, now only one week away. For now, dealers are attending regional shows and auctions. One such event, as part of the 47th Annual Coin Festival, was the Scotsman Midwest Summer Sale 2007 in St. Charles, Missouri, which realized more than \$1.3 million.

Dealers and astute collectors are willing and ready to pay out the big bucks for an attractive rarity should it come along. In fact, one happy investment banker from New York City is celebrating his July 23rd, pre ANA coup with the \$1.9 million purchase of a classic rarity: the finest known 1894S Barber Dime graded PR66 by PCGS. With only 9 such coins known to exist, this Dime is certainly one of the **most coveted** coins in all of numismatics. The exciting sale, orchestrated by John Feigenbaum, President of David Lawrence Rare Coins, made local and national news, prompting would-be collectors and the newly curious to flood coin shops across the country with inquiring phone calls.

Many other rarities are scheduled for their appearance and availability to the highest Bidder in Milwaukee as three major auction companies—Superior, Bowers & Merena and Stack's each conduct Wisconsin sales on consecutive days. Superior gets the ball rolling with its August 3rd Elite auction. Bowers & Merena's Milwaukee Rarities Sale follows on the 4th, while Stack's completes the trio with the J. A. Sherman Collection sale on August 5th. Those dealers who survive this mini-marathon will have to get their second wind quickly as the ANA Heritage Milwaukee auction, including the Platinum Night portion, is scheduled for August 8-10. Dealers continue to echo their positive sentiments concerning the market, and optimism that strong demand is poised to stampede into the 2nd half of 2007 is high. One must remember that many variables make up this bullish rare coin market outlook. The situation can change quickly when an unforeseen circumstance or set of circumstances becomes part of the equation. The world of rare coins is also buzzing not only with optimism, but curiosity regarding a new service available soon from Collectors Acceptance Corporation (CAC). John

Albanese, the founder of CAC, will offer an approval sticker for NGC and PCGS slabbed coins which are deemed solid for the grade. Most importantly, with the support from a consortium of dealers, this service may well serve to rejuvenate the sight-unseen market by offering substantially higher Bids for such "approved" coins.

The weekly COIN DEALER newsletter (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight–seen. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight–unseen** market, which already include consideration of certification costs. Bids for a sight–seen "raw" coin may be higher or lower than for a **sight–unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

www.greysheet.com

MERCURY DIMES: A perceptible increase of supporting Bids has begun to envelope earlier Merces. With want lists in hand, timing is crucial, as the push is on to secure as many quality examples as possible prior to the ANA shindig.

WALKING LIBERTY HALVES: As the rejuvenated later issues enjoy some well-deserved buyers' attention, the action shifts a bit as several scarcer early entries get on board. Take a look as the popular 1918 is on the run as a \$2,800 offer claims MS65s. The uprising continues as a trio of San Francisco players takes the anchor leg as the tough and usually well-struck 1933S powers to \$3,000 in Gem. Rounding out the solid sprint, we find both the 1941S and 1942S taking the high road also in MS65.

DOLLARS: As buyers endeavor to locate problem-free material, all the recent advances are secured by supporting Bids. DMPLs mirror ample attention with the tough 1895S climbing in Circ and the semi-key 1896S topping \$4,400 in MS64. Peace Dollars maintain a solid base of demand, yet buyers are still content to hold steady and get mileage from current offers.

PROOF SETS AND MINT SETS: Although buyers are generally in queue to buy most Proof Sets at or a bit in back of present Bid, we note that a surplus of 1950-1952 Sets has necessitated a modest roll back there and for various later issued collector Sets. Mint Sets have lost a bit of the flavor too, as only the 1981 Set musters an advance in the face of numerous minor setbacks.

COMMEMORATIVES: This varied cornucopia of Silver Americana has never really waned within the collector base. What has been happening recently is that many dealers are confronted with an immediate need for cash which has made certain of these easier to locate examples expendable. Although these business sustaining tactics are far from whimsical, this ploy may be soon coming to a halt as deep discounts are not to be found. Three piece Silver Eagle Anniversary Sets are melting a bit under the summer heat, retreating to a \$380 Bid from a peak of \$525.

TYPE: There is just no let up in this corner as anxious dealers look to finagle a supply of fresh material for their clients and to shore up lagging inventories. Whether it be a call for the popular one year Type 1859 "white" Indian Cent or Shield Nickel in Circ, this corner's fervent followers register a loud voice. Buyers remain on high alert and are highly motivated as they attempt to flush out as much quality Type at as close to current levels as they can before the Milwaukee blitz begins.

GOLD: As the Midas touch relinquishes its grip, we note that the bullion dependent are capitulating to the lower octave. Interestingly, better Gold Type maintains support as a dozen in Mint State advance. Leading the pack, \$3 Princesses may be finally on the rebound, providing a solid quadruple Bid increase with the elevated escapade following her in MS62-MS65 as the latter tops \$13,500.

Cash right seen sales may command a substantial premium above *Bluesheet Dealer-to-Dealer Bids*.

Over the past twenty years, the certified market has been very active. The volatility that characterized the sight-unseen market has been replaced by more stable

The **Bluesheet** reports dealer Bid levels for sight-unseen coins. Dealers may pay even more depending upon their needs, but remember, pricing changes are an enduring characteristic of the coin market. Bids can increase or decrease dramatically; without current market information, making informed buying or selling decisions is impossible. You need the **Bluesheet** now!

TRADING BRISK AT ANA PRE-SHOW

EARLY WISCONSIN AUCTIONS COMMAND \$18 MILLION

The Market in Depth

This Week's Market

Tremendous activity abounds as the ANA extravaganza—one of the numismatic highlights of the year begins. Three strong auctions are already in the books. Superior's Milwaukee Elite Auction brought nearly \$2.58 million on August 3rd, with 98% of the lots selling. Bowers and Merena followed with the Milwaukee Rarities Sale realizing \$6.53 million on August 4th. Stack's concluded their J.A. Sherman Collection auction at \$8.76 million on August 5th. Wisconsin Pre-ANA sales now total close to \$18 million. Dealers have maintained their high pre-show expectations for Milwaukee, and such auction results can only raise hopes further.

PNG set-up night was certainly active, with dealers bustling to buy and sell in the short time allotted. Dealers returned to the invitational event the following day where pre-ANA trading resumed, along with last-minute previewing of the anticipated Heritage auction taking place Aug 8-10. The expectations for the ANA are always high since coins of significant rarity and quality are slated for this venue. As is normally the case, most go to the ANA to purchase coins, and some have been faced with significant challenges in finding examples to satisfy the current overwhelmingly strong demand. Nevertheless, activity remains strong as dealers appear to be flush with cash and are desperately willing to spend serious money for coins. After all, most came a long way, investing a good deal of time and money in this show. Returning home empty handed is simply not an option. Although sales have been good, they're not indicative of a utopia feeling considering the reports we've been given regarding a lack of real depth of inventory. Much of the better material has already been taken off the market, in many cases placed in the strong hands of serious and knowledgeable collectors. Such coins will probably be unavailable for several years. These circumstances encourage, if not force, dealers and collectors to be flexible. It may become necessary to abandon the original game plan. In this fluid market, those that can aggressively act with foresight, knowledge and conviction have a much better chance of success.

Buyers are still looking for the key dates of all series. The powerful collector demand for this material continues unabated. Meanwhile, early Flowing Hair and Bust coinage of all compositions are two areas where dealers' dollars are looking to be spent. Better dates from the Liberty Seated and Barber series are also in demand. The only problem will be finding and securing this material before someone else removes it from the market.

CENTS THRU HALVES: A summer wave of eager buyers remains in place for most denominations, yet numerous later dated Proof Lincolns are caught sliding a bit. Conversely, most late dated Kennedy Halves are surging with activity as 2006P and D each claim \$22.50.

MERCURY DIMES: Bids remain in place for most high-grade specimens with Fully Split Bands. Several better dates are on the receiving end of higher Bids in grades G thru XF.

WALKING LIBERTY HALVES: It hasn't been a stroll in the park, yet as Walkers continue their trek towards newfound respectability, renewed interest is captivating a widening collector base. Now as support is expanding for scarcer and premium grade examples, we observe a push for high-end Circ offerings as AU commoners top \$9.

DOLLARS: Even though generic Gems have pulled back to a Bid of \$110, anxious buyers will no doubt be on the prowl in Milwaukee for frosty white examples that exhibit the fullest strike possible. DMPLs remain vibrant, reflecting much enthusiasm at present levels. Peace Dollars are still a strong contender too, putting up a good fight as a healthy dose of supporting Bids are waged in this corner.

PROOF SETS AND MINT SETS: Unfortunately, Proof Set paths has returned in a big way as over 3 dozen entries drift lower. Mint Sets are also catching the same malady; this malaise infiltrates many here as the inaugural 1947 issue drops to \$1,100.

COMMEMORATIVES: Although some dealers look to cash in on their immediate liquidity, many collectors both experienced and new are still drawn to this vast arena. As historic themes and low mintages echo their approval, a handful of Classic Silver issues seem to be flirting with veritable bargain levels. Perhaps now, as things appear to be stabilizing, would be a prudent time to acquire the likes of the Norfolk and Wisconsin as each has experienced multiple rollbacks.

TYPE: Early Type stands as tall as ever, insuring that prospective buyers will be enthusiastically traipsing up and down the aisles of the Milwaukee bourse scouting tables for original and exemplary examples. Take a look as the elite of Type coins, the Small Eagle Draped Bust Halves take off in high-end Circ grades as AU rarities power to \$120K. Mint State material chimes in as Uncirculated Liberty Seated Dollars and Liberty Seated Dimes in Gem are on the rise. Fervent demand for Proof Type is escalating too, as Brilliant Proof Buffaloes herd higher in PR63 and PR64.

GOLD: As Gold Spot advances a bit, the bullion sensitive are compelled to rise in unison. Yet once again, better Gold Type (MS64-MS67) is the real story targeted by the flight of the golden arrow. Take a look below as this concerted passion reveals that \$3 Princesses are encoring a moderate advance, this time in MS63-MS64. Yet the tough \$5 & \$10 Indians are the showstoppers, each winning a triple Bid jump of their own as the proud \$5 Indian powers to \$55K in MS67.

The weekly COIN DEALER newsletter (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified sight-unseen market, which already include consideration of certification costs. Bids for a sight-seen "raw" coin may be higher or lower than for a sight-unseen certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark—these bring lower prices. "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full steps" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or "put together" bring lower prices. Gem full at the Washington Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN.

WISCONSIN A WINNER

ANA AUCTION SCORES \$27 MILLION

The Market in Depth

This Week's Market

Most dealers returning from the American Numismatic Association's World's Fair of Money said business was outstanding. The huge show in Milwaukee was indeed a hit, and dealers were quite pleased with the volume of business conducted, with activity exceeding expectations. Bull market strength was certainly evident at the show, particularly in the high-end category. For example, several dealers we spoke with said "big money" coins were especially in demand and selling well, with buyers willing to spend five-figures and more for select rarities. Such coins as the \$20 High Relief Saint-Gaudens, \$50 Pan-Pac Slugs, and \$4 Flowing Hair Stellas were just the ticket for many astute and deep-pocketed collectors. With such demand for these high value treasures, sometimes a single specimen captured can make for a great show. One dealer from Florida went home very pleased after his one and only purchase: the extremely rare and desirable 1870-CC \$20 Liberty in AU53. Gold coins in just about any flavor were hot in Wisconsin. In addition to the above-mentioned winners, Proof, Early, Dated and even common date \$5 and \$10 Indians were on the move. Two other areas which enjoyed attention were Type, including slightly better dates, which was highly sought-after in Very Fine and better condition, and Barber coinage, which also found ready, enthusiastic buyers. Dimes and Half Dollars, being the hottest Barber denominations, were in demand in Fine thru AU. In this robust market, collectors want original, problem-free coins that are solid for the grade and posses some degree of eye appeal and scarcity. Demand for this material definitely fueled the activities in Wisconsin.

While most participants were in the Badger State mainly to buy, some also achieved quite successful sales on the bourse. One Gold specialist sold nearly 2 dozen Charlotte and Dahlonga examples in various denominations, mainly in grades XF and AU. Also, an NGC MS65 1865 \$20 Liberty changed hands, wholesale, at \$41,000. Other dealers were successfully selling key date coins which remain super strong despite the high levels they've already achieved. Several dealers were especially encouraged with the rare coin market's performance in light of the credit problems facing our economy. Some were concerned that recent volatility in the stock market would make potential buyers a bit gun-

shy. It seemed that dealers and collectors just shrugged off these worries and concentrated on buying and selling at the biggest numismatic event of the year. The ANA Milwaukee U.S. Coin Auction including the Platinum Night sale by Heritage realized \$27.4 million August 8-10.

MERCURY DIMES: Mercs continue to strike a positive chord with a multitude of savvy collectors, resulting in the ongoing pursuit of this series by many discerning dealers. Heightened monetary stamina was evident by the ANA auction appearance of the popular 1942/1 issue as a gleaming PCGS MS65 example, in an old holder, charged to an impressive \$19,550. One of the keys to the conclave, 1921D, is inching up in Choice as are the Mintmarked duo from 1928.

WALKING LIBERTY HALVES: Building on recent momentum, Walkers have started to sprint! Diverse and eager demand is finding 1st year issues: 1916 & 1916D as Gems top \$1,300 & \$1,800 respectively. Keeping up the pace, both 1929D and "S" entries are on the move, and the perhaps still underrated 1934S takes \$3,550 also in MS65. Rounding out the prevailing surge, several from the short-set oblige with advances.

DOLLARS: With nearly \$45 million in auction bills due soon, a handful of higher priced Morgans are mustering a modest retreat. Certainly, the quick sale of some of these offerings will help satisfy the auction piper. Nonetheless, a strong supporting case envelopes many regular issues and desirable DMPLs. Peace Dollars, though quiet again, maintain their solitude with an abundance of visible Bidding vigor present.

PROOF SETS AND MINT SETS: The pride of the modern era, 1936-1942 Proof installments cater to ongoing demand, yet several later Proof Sets, primarily State Quarter related issues, are surrendering ground. Mint Sets maintain their status quo with none dissenting and most fortified with visible buyers at current levels.

COMMEMORATIVES: These diverse and historic offerings may be about to round the corner. As the Classic Silver caravan has slowed their retreating ways to a crawl, opportunity may have opened a window for budget conscious collectors. For those on a more liberal allowance, the 11-piece Classic Gold Set is beginning to revel in not-so-silent approval with several garnering supporting strength primarily in Very Choice.

TYPE: Dealers are chattering up a storm with raised Bids this report. Take a look as a barrage of higher offers is targeting numerous Liberty Seated denominations and variations. Leading this formidable entourage, we spot a convincing triple Bid jump landing on popular Liberty Seated Halves with Motto in MS63-MS65 as the latter rises to \$3,150.

GOLD: As the yellow metal appears to maintain a firm foothold at present levels, a few more Gold bugs are rearing their heads, more than willing to test the warming waters this late summer. Better Gold Type retains an eager assembly as many MS63-MS65 players are participating on the upside. Leading the way are \$3 Princesses taking \$7,600 in Very Choice and the ever popular \$10 Indians sending up smoke signals for solid specimens at \$5K Bid in Gem. Type I Gold Dollars continue their charge this week; now at \$920 in MS63, these tiny jewels are up over 30% from January, 2007.

The weekly COIN DEALER newsletter (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

I would like to bring your attention to the terrific assistance I was given by Dale Larsen during the sale of my extensive coin collection. Dale took the time to explain each factor that is used to determine a fair and reasonable value of my collection. Any question that I had was quickly answered by Dale. My experience with Spectrum has been very positive. I would not hesitate to recommend Spectrum Numismatics to anyone wishing to sell their collection. Thank you.

Sincerely,

RARITY & QUALITY GAIN, GENERICS WANE

PRECIOUS METALS RETREAT

The Market in Depth

Increased volatility in the financial markets may make collectors and dealers nervous, but the overall direction for rare coins is clear. Optimism dominates as all have digested the results from the American Numismatic Association's big show and auctions in Milwaukee. Demand is carefully targeting a select group of rarities with an emphasis on quality and eye appeal. Such coins generate exceptional interest and Bids, often resulting in tremendously strong prices. These are the coins that dealers and serious collectors remain focused on, and this high-quality material continues to gain strength despite the uncertainty and volatility in today's economy. Coins devoid of the above-mentioned qualities have understandably fallen out of favor and in value.

Silver was hit particularly hard this week, as Spot lost \$1.10 since our last report, now at \$11.71 per ounce. This represents a precipitous 9 percent decline. Bags of Junk Silver are down \$650 from last week at \$8,130 Bid. Gold bullion is down as well, but its \$13 per ounce fall to \$656.70 translates to only a 2 percent drop. A reprieve of sorts may have come too little, too late after the Federal Reserve Bank stepped up and cut its Discount Rate from 6.25 to 5.75 percent. This adjustment makes borrowing money from the federal government less expensive for commercial banks and other institutions. If the economy's health improves, it may create an atmosphere conducive to adding to coin collections. This, among other reasons, is why we continue to see greater demand for early coinage, premium quality specimens and attractive scarcer issues, and conversely, lackluster support for generic and dull material. Discounted generics may offer an excellent opportunity for those collectors more interested in assembling a small group of staple coins for fun instead of investment gain. Currently, many of these coins can be bought at attractive prices as supplies continue to overwhelm demand. Average quality, common date examples can certainly provide some level of enjoyment. Common Morgan Dollars have slid over 30% from last year in Gem condition. Bids also continue to fall within the Classic Commem series, allowing one an opportunity to assemble a nice representation of this material at reduced levels. Of course, those collectors that live for the challenge of buying th better dates and higher grades know achieving their goal isn't going to be easy. Attractive coins continue to face super competition, and these are the coins that seem to increase virtually every time they change hands. An example of this scenario occurred in a David Lawrence auction on August 20th when an attractive 1795 Draped Bust Small Eagle Dollar Graded NGC 58, realized \$27,600.

An added complication for collectors, and indeed all of numismatics, is arising from the Far East. Auctions originating from China were recently shut down by eBay amid suspicion of counterfeit NGC and ANACS slabs being offered. This is a new problem as fake Trade, Bust and Seated Dollars have been pouring into the U.S. in raw form for some time now. In addition, dealers have reported an increase in the amount of bogus Gold and Silver Pandas entering their shops. Aside from just not looking *right*, these impostors can be identified by their insufficient weight.

This Week's Market

CENTS THRU HALVES: As Spot Silver falters, many of the more bullion dependent denominations have drifted a bit lower. Select early Lincolns are again on the move, yet one of the keys to the popular Jefferson Nickel series takes top honors here as the 1939S powers to \$1,700 Bid.

MERCURY DIMES: There is no explosion of new excitement within Ms. Winged Liberty's corner. Yet what is impressive is the omnipresent garland of gallant buyers still actively pursuing scarcer and Full Band issues. Although the demand favors Mint State examples, keys such as the mariarch 1916D and both 1921 entries are on the move as a heated following scours for pockets of pleasing original Circ specimens.

WALKING LIBERTY HALVES: Walkers find the "Great Depression" year of 1929 not that distressing. Once again, positive action serves up some solid gains as both D & S deliveries climb to \$2,500 and \$2,800 respectively in MS65. Short-sets still cater to affirmative demand too, as the 1945D tops \$144 in Gem.

DOLLARS: Although generic Gem offerings have cooled down a bit, Morgan enthusiasts remain a diverse lot. Buyers are now shifting gears, consumed with acquiring better dates such as the 1883S, rolling up higher offers in Choice and Very Choice. Look at the tough 1903S powering ahead in the same MS63-MS64 combo as the latter sports an impressive \$500 advance racing to \$6,600 Bid. DMPLs mirror continued buyers' frenzy as over 4 dozen of these dazzling conditionally scarcer installments elevate. Peace Dollars still appear to be enjoying summer hiatus, yet support for most of this popular series remains in check.

PROOF SETS AND MINT SETS: This market segment is a virtual tale of two cities. Whereas the key entries covering 1936-42 have waiting homes at present levels, most later Proof Sets are unwelcome relations as sellers look to unload quantities at or near Bid. Mint Sets are fighting to retain a positive flavor as a trio of modest gains looks to combat some dissidents.

COMMEMORATIVES: Classic Silver issues are propagating moderate collector interest, yet buyer support is unable to come back full circle. This report we note a few easier to locate issues retreating a bit further. Not helping the cause, one dealer is looking to unload a top NGC registry set at 20% below Bid. Classic Gold is still getting back on its feet enjoying a further measure of respect while looking for buyers. \$10 Jefferson First Spouse issues will be offered August 30th with purchases limited to 1 per household. Dealers are already offering a 10% premium on this coin.

TYPE: Seemingly every week, new and enthusiastic collectors enter this veritable numismatic smorgasbord, each with varying palates. Original and problem-free early Copper and Silver featuring Flowing Hair and Draped Bust designs remain the top prizes on their lists. Yet as flustered dealers attempt to cater to ravenous hobbyists' desires, it seems more times than not demand exceeds ever-dwindling supplies.

GOLD: The complex hand of world affairs has dealt a blow in many areas including the yellow metal. Yet as a minor surrender surrounds the bullion sensitive, better Gold Type bucks the trend once again. Take a look as several participants rally in Choice through Gem as the exploits of the rejuvenated \$3 Princesses are chronicled by a substantial triple Bid jump as MS65s scamper to \$13,600.

The weekly COIN DEALER newsletter (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark - these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series - "gem, full bands" rolls are worth more than listed prices - particularly the pre-1941 issues. Washington rolls - dull or "put together" bring lower prices. Gem full strike Walking Liberty rolls (particularly the 5-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN.

\$3 MILLION PLUS FOR ULTRA-HIGH RELIEF SAINT
GENERIC DOLLARS REBOUND

The Market in Depth

This Week’s Market

The financial markets are vacillating here at home and around the globe, as a result of finance companies having offered high risk, subprime mortgages to some customers. Tentative investors are contemplating their next move in light of major credit concerns and declining consumer confidence levels. Perhaps unsurprisingly, these economic adjustments have resulted in the housing market’s further deterioration. Although the Federal Reserve Bank’s intervention may stem the tide temporarily, it is still a wait-and-see situation. Will the economy head south? Some have even mentioned the “R” word, though it is premature to say that a recession is imminent. Of course, a thriving economy is crucial to the health of the rare coin market. If collectors find themselves in a bind for cash, or they curtail buying additional coins, then things can deteriorate quickly. Many dealers remain in a strong monetary position, sustaining Bid levels as we close the month. This won’t necessarily translate into rare coin acquisitions if those holding the needed material are not willing, or don’t feel the economic need to part with it. In any case, optimism is still strong for the September coin market, assuming the economy remains on a relatively even keel.

Dealers do expect a rough road as we move forward when it comes to finding some of those important want list coins. In part, the difficulty stems from the quality demanded by their customers. Today’s sophisticated collectors are looking for original, attractive coins that are problem-free for the grade. While the key dates are preferred, collectors are willing to accept other low mintage dates that are considered to be “sleepers.” Demand is still very strong for any pre-1840 coinage. These coins are being put away at an alarming rate, and dealers say replacing them is getting increasingly difficult. Fortunately, opportunity is at hand for acquiring some of this highly demanded material. As summer winds down, activity gears up again in September. The Long Beach Expo, auctions and its surrounding Beverly Hills pre-sales are some of the upcoming venues that have real potential to produce success next month.

At least one collector was recently willing to let go of a prized numismatic rarity. From details just released, we learned that the finest known 1907 \$20 Ultra-High Relief Saint-Gaudens, graded PR69 by PCGS, sold via private treatise for over \$3 million in cash. Heritage Auction Galleries facilitated the sale to Certified Assets Management Incorporated, of Wilmington, Delaware on August 13. Don Ketterling, Executive Vice President of CAMI, described the rarity, saying, “This coin has it all: It’s big. It’s gold. It’s rare. It’s the highest quality possible, and it’s unquestionably one of the most beautiful coins ever produced anywhere in the world.” Ketterling also discussed how this recent acquisition demonstrates continued, very strong demand for big money coins. Today’s market routinely sees coins selling for well into the seven figures time and again. Indeed, what is now considered almost commonplace was simply unheard of just a short time ago.

MERCURY DIMES: Merces are still popular for veteran enthusiasts and newcomers alike. As both factions clamor for pleasing keys and scarcer examples, dealers are responding as additional strength is manifesting for selected early entries. Also, as new collectors are entering the numismatic arena, many are enticed by the affordability of several issues within this enchanting series. After all, where else can a collector procure multiple MS65 examples of an obsolete U.S. Type Silver coin that is over 60 years old for under \$20?

WALKING LIBERTY HALVES: In this corner, the situation has certainly livened up over the course of the summer. Now as fall approaches, Walkers continue their trek towards enhanced popularity. Further acceptance by buyers serves to stimulate the essential early elements and bolster the case for the scarcer middle years. As the tougher 1934S climbs to \$3,600 in MS65, the commoners move up to \$120 Bid in Gem.

DOLLARS: Just when it appeared that generic Morgans were cooling down, we observe a sortie by a major player. As multiple examples are required immediately, Bid for MS65s has propped commoners back to \$110. Most other issues are on the quiet side, and DMPLs have contained themselves this report, although viable support remains staunchly in their corner. Peace Dollars once again are docile, yet aggressive Bids for most of this popular and still affordable series in Choice and better are highly visible.

PROOF SETS AND MINT SETS: The apparent momentum that was building in the Proof Sets sector was perhaps merely an aberration as 11 are retreating, including the 1999S Silver Set to \$310 Bid. Mint Sets reveal nearly the same fate with a baker’s dozen coming up short as the recipe for success eludes them, too.

COMMEMORATIVES: It’s not an easy journey for the Classic Silver contingent as one seller is offering \$95K in sundry PCGS MS65 and MS66 examples, ten back. Although a group is retreating a bit further, there is a positive aspect following these perennial collector favorites. Subtle sparks are igniting under several as the Booker T. and Washington Carver sets are reeling in increased offers in AU. While Classic Gold isn’t on fire, the 11-piece ensemble is catering to more demand at present levels.

TYPE: In an attempt to pry some coveted early Type from hiding, one well-known dealer is sounding the charge. All Flowing Hair and Draped Bust Silver Type denominations are scintillating with action—skyrocketing by as much as 50%. Leading the Dollar surge are the majestic Flowing Hair Halves powering \$5K higher to \$26K Bid in MS60. Matching this thrust are Draped Bust, Heraldic Eagle Halves in Gem claiming \$45K. Yet even with this adrenaline rush of plus signs, the beaucoup bucks offered don’t necessarily ensure a happy ending, as many of those thundering higher harbor minuscule populations. This evidenced by the combined 26 Draped Bust, Large Eagle Halves grading MS65 with a scant 8 designated higher.

GOLD: As the golden yo-yo is on the up swing, the real story is the continuation of insatiable demand targeting high-grade Mint State Gold. Look as nearly a dozen non-bullion dependent escalate in MS65. Leading the volley are the Type II Gold Dollars, as these 2-year Type coins push to \$26,600. \$3 Princesses remain robust as a quadruple Bid increase follows her highness from MS62-MS65 as the latter jumps to \$13,800.

The weekly COIN DEALER newsletter (the Greysheet) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight–seen. The coins may be certified or “raw” (uncertified), but the grading MUST ADHERE to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified sight–unseen market, which already include consideration of certification costs. Bids for a sight–seen “raw” coin may be higher or lower than for a sight–unseen certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCGS, NCI, ANACS, NGC and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose bid is represented within. Therefore, a specific coin could be worth more or less than the listed Bid price. For the Bid prices of coins certified by ANACS, NCI, PCGS, and NGC please refer to the Certified Coin Dealer newsletter.

2005 P Marine Corps 230th Anniversary BU / 2005 P Proof		35.00	38.00	38.00	41.00	Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.									
2005 P Chief Justice John Marshall BU / 2005 P Proof		28.00	31.00	30.00	33.00	MS60-Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.									
2006 P Benjamin Franklin Scientist BU / 2006 P Proof		33.00	35.00	43.00	47.00	MS63-Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.									
2006 P Benjamin Franklin Founding Father BU / 2006 P Proof		33.00	35.00	40.00	44.00	MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.									
2006 S Old Mint San Francisco BU / 2006 S Proof		32.00	35.00	34.00	37.00	MS65-Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal.									
MODERN AMERICAN EAGLES						MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.									
All Modern Eagles and Sets must contain complete original U.S. Mint packaging.						*Please Note: This page alternates weekly with Page 3A which contains BU and Proof Rolls.

...a Friday morning report on the Coin Market

GOLD PUSHES HIGHER

ARE WE SEEING HISTORY REPEAT ITSELF?

The Market in Depth

September begins with a bang as precious metals take the lead by climbing past trend lines. Gold pushed thru \$680 per ounce while Silver is comfortably trading above the \$12 mark. It is well known that increasing metal prices generally have a favorable psychological impact on the rare coin market, but there are other factors to this equation taking shape as well. Many veteran coin dealers remember the powerful 1970s rare coin market, and some analysts see a current comparison to the sharp run-up in metals and rare coins that took place during the late seventies and early eighties. Back then, increasing energy prices and a stagflation environment combined to wreak havoc on the U.S. economy. Prices for food and health care increased, and the Federal Reserve clamped down on interest rates during this period to halt inflation. Credit problems erupted as well, adding to the misery. This led people to have much less confidence in paper assets, and so bullion and rare coins benefited significantly. Today, the Fed is facing like issues in trying to combat credit problems along with energy, medical and food costs. Unfortunately, as was the case in the past, there is some warranted concern that the economy could fall into a recession as well. Consequently, a similar scenario from years ago just might be playing itself out. The Fed is currently urging loan companies to work with troubled borrowers so they don't loose their homes. Today, like then, people are loosing faith in paper assets. Commercial paper that includes sub-prime home loans has certainly contributed to the current credit problems that have had some impact on the rare coin market. Easy money that was evident over the past few years has helped to fuel the bull market for rare coins. Increasing asset values, such as those accrued within a person's home, meant that people felt more willing to make luxurious purchases such as rare coins. Now, that wealthy feeling is beginning to disappear as home prices slide. Dealers tell us that they have previously taken a good number of checks from their customers for rare coins that were written from their home equity line of credit. Does this point towards a repeat where an explosion in metal and rare coin prices might occur? Some rare coin analysts believe this to be the case. They say that many people are still very interested in coins, but they are a little bit more careful about how they spend their money today. Several auctions are scheduled to take place this month culminating with the Long Beach Expo September 27-29. This auction push certainly presents a great buying opportunity for those picky collectors who are looking to find the fresh material they so desperately need.

This Week's Market

CENTS THRU HALVES: As we get ready to make the transition to fall, early Lincoln rolls are red-hot and ablaze with advances. Many modern Proof the rolls continue to fall back as dealers look to sell off some replaceable inventory.

MERCURY DIMES: Mercs retain most of their staunch support, yet Full Banded Gem commoners have eased to \$39. With that said, prudent buyers are still battling for the ever-popular key 1916D, looking to get as much mileage out of their Bids as possible.

WALKING LIBERTY HALVES: Although the prime player 1917S (Rev) slips a trifle in MS64 the buyers' zest for the majority of Walkers remains in check. Shoring up the ongoing support we observe a pair from the short-set bounding higher, led by the 1943D in MS65 claiming \$260.

DOLLARS: Morgans maintain a solid grip on many collectors — both entry level and veteran. Substantial Bid jumps are chasing the tough 1883S in Choice through Gem as the latter powers to \$19,500. This San Francisco delivery, though usually possessing a bold strike, is often beset with heavy grade limiting bag marks. A quick check of the PCGS/NGC population confirms this as a paltry 29 MS65 specimens are reported and a scant 6 grading higher within this designation. The Peace Dollar contingent retains visual vitality although a trio of scarcer issues reflects subtle rollbacks.

PROOF SETS AND MINT SETS: Although Proof Sets have no real gains to offer, many are harboring support that was not in evidence as of our last report. Mint Sets, too are seen wafting a favorable air about them as some of the more economical issues remain in vogue.

COMMEMORATIVES: As many within the Classic Silver ensemble get a head start on the season by falling back further, we do spy several solid performers. Those under concerted buyer pressure include unwavering support for the likes of the 1925 California Jubilee, 1918 "Mr. Lincoln" as well as several issues within the proud and historic Oregon Trail series each beaming with dealers' vigorous empathy. Conversely, other than the massive Pan-Pac Slug duo, the other Classic Gold disciples are still waiting for a wake-up call as several drift lower.

TYPE: Intense pressure to secure quality early Type remains at the forefront. Yet as dealers canvass the internet and countryside for early federal Silver we observe that some later issues are rising in the ranks. Take a look as Barber Dimes are inching up in MS65 and the popular Type II Standing Liberty Quarters possessing a desirable "Full Head" are also on the move in MS63FH-MS65FH.

GOLD: As the Midas factor begins to surge and take hold, many sideline watchers are more willing to enter the fray. In addition to the more bullion dependent, many better Gold Type issues continue to race higher. Ongoing demand for nearly all Mint State Gold Dollars is highly visible as are those desiring the popular \$5 Indians as they drum louder in Very Choice and Gem.

The weekly COIN DEALER newsletter (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCGS, NCI, ANACS, NGC, and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose bid is represented within. Therefore, a specific coin could be worth more or less than the listed Bid price. For list of Bid prices of coins certified by ANACS, NCI, PCGS, and NGC, please refer to the Certified Coin Dealer newsletter.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark—these bring lower prices. "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or "put together" bring lower prices. Gem full strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN.

GOLD ROCKETS OVER \$700

\$40K OFFERED FOR 1796 NO STARS QUARTER EAGLE

The Market in Depth

As world economic events temper the financial markets, the numismatic fall campaign kicks off full stride with a thundering boost courtesy of a surging Gold Spot. Having finally broken through the \$700 per ounce goal line, the yellow metal has again captivated the attention of dealers and collectors alike. As expected when the metals make front-page news, sideline players as well as veteran enthusiasts are anxious to get in on the action. As a flood of new inquiries from those interested in buying bullion inundates the coin market, many dealers are taking this opportunity to educate potential new customers on the virtues of a more numismatic purchase such as Mint State \$20 Libs or Saints. As the spreads on Double Eagles are still very appealing when compared to bullion Gold coins, these purchases make sense and may well spawn a new collector and patron. Of course, with just a few months left in the year and the holiday season in sight, dealers will take in all the new business they can to finish 2007. Still on the same page, other Gold Type remains blistering hot as well. One well-known dealer has such a severe case of Gold fever he is now offering \$40K—double the previous Bid—for Fine examples of the coveted and rare 1796 No Stars Quarter Eagles. VF through MS60 specimens are also thriving with advances. To be sure, with an original mintage of 963, these coins are extremely hard to find problem free, yet with this powerful enticement, perhaps a few will be sprung loose. Other Early Gold Type is also ringing up sizable gains as Draped Bust Half Eagles and Eagles follow the Quarter Eagle's lead. Most other Mint State Type, especial early federal Silver issues, remain front and center with buyers' demand exceeding meager supplies in nearly all cases. Early Large Cents in all color combinations are still attracting a strong audience. Key date mania within most 19th and 20th century series continues with few exceptions. Nearly all other Type material has visible support, although we do observe an easing back for MS65 Liberty Nickels. With want lists in hand, dealers will be looking to make some substantial purchases. For some buyers, the East Coast beckons first as Stack's will host their Autumn sale September 18th in New York City. Others will take advantage of the fast approaching bevy of Beverly Hills sales prior to the Long Beach Expo. Commencing September 23rd Larry & Ira Goldberg will offer some superb coins; we have listed a few of the many highlights. Superior Galleries' effort gets underway 9/23 offering over 1,100 lots including the Reno Collection consisting of a complete collection of Carson City Half Eagles and Eagles. Other material consigned includes many key dates in older PCGS & NGC slabs.

This Week's Market

MERCURY DIMES: As supporting Bids remain ample, top dealers exhibit their moxie by offering top dollar for bright white Full Banded Gems with an accent for those in the \$500 to \$20K categories.

WALKING LIBERTY HALVES: Fresh, well-struck, later date Walkers continue to get the nod whether from the new collector on the block or the veteran enthusiast. Take a glance as the scarcer 1934D hits \$1,250 in Gem, and the ongoing popularity for the short-set targets a trio moving up the scale in MS65 led by their key, 1941S, claiming a solid \$900.

DOLLARS: Morgans deep consortium of aficionados is on the lookout for a half dozen scarcer coins grading MS64. Those participating in this recent outbreak include the popular San Francisco deliveries of 1885, 1887, 1889 and 1890, along with the 1889O and 1904. These still appear solid values, and since all are Bid at \$600 or less, they are affordable for a wide range of budgets. Peace Dollars are making some noise as one of the keys to the series, 1928, drives to an impressive \$13,500 Bid in MS66. Equally imposing is the fact that a mere baker's dozen are graded as such by PCGS/NGC with none higher. Rounding out the fanfare, several scarcer players—1924S, 1925S and 1927 D&S—are each increasing in MS64.

PROOF SETS AND MINT SETS: As the holiday rush will soon be at hand, many collectors return to this corner to secure late date Proof Sets as gifts. Several dealers are currently willing to pay up to 95% of Bid for Proof Sets. With many sets Bid under \$5, these special collector coins are still one of the most affordable places for the new hobbyists to start their collection currently. Mint Sets seem to second the motion as building support zeros in on several.

COMMEMORATIVES: Once again we observe that Washington Carvers are fostering advances in AU thru MS60. In fact, savvy buyers are willing to pay \$30 each for any MS63 singles with a mintmark. The Classic Gold ensemble has played the floor mat long enough. Dealers, though perhaps with some trepidation, are beginning to place the welcome mat out instead, willing to get reacquainted with these low population jewels as a solid pattern of support is landing on many here.

TYPE: Enormous demand follows this ever-popular building block of many successful collections. Whether it is Flowing Hair, Draped Bust, or Seated Liberty, not one iota of support appears to have waned. As buyers remain in a solid queue, we note that Liberty Nickels are inching up in PR60, and top flight Liberty Seated Dollars With Motto are under pressure as PR65 examples top \$9,500.

GOLD: The golden juggernaut has plowed through the strategic and psychological \$700 barrier. The result on this auspicious occasion is a veritable blizzard of advances seen showering down on the field below. There is no certainty what lies ahead, yet for the moment, the Gold rush of 2007 is on.

The weekly COIN DEALER newsletter (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCGS, NCI, ANACS, NGC and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose bid is represented within. Therefore a specific coin could be worth more or less than the listed Bid price. For the Bid prices of coins certified by ANACS, NCI, PCGS, and NGC, please refer to the *Certified Coin Dealer newsletter*.

1894S Barber Dime Captures \$1.9 Million
Collectors Acceptance Corp's Service Unveiled

The **Certified Coin Dealer newsletter** ("Bluesheet"), published by the Coin Dealer Newsletter (est. 1963), is the **only** price guide available listing the wholesale Bid levels of coins certified by the Professional Coin Grading Service, Numismatic Guaranty Corporation, ANACS, PCI, ICG, SEGS and other independent grading services. Published weekly, the "**Bluesheet**" reports the highest known sight-unseen Bids on actively traded certified coins in the standard grades of Mint State and Proof. Prices are constantly updated for the most popular series and issues graded by the leading services. Bids for PCGS and NGC are reported every week; Bids for other services are updated monthly. And once each month the **CCDn** also contains Market listings - at no extra charge!

Over the past twenty years, the certified market has been very active. The volatility that characterized the sight-unseen market has been replaced by more stable

price movements, attracting a new generation of collectors. As our **CCDn CMI** (a weekly **Bluesheet** feature) illustrates, the overall market is **moving higher**. In addition to pricing changes in the market, Bid levels may differ considerably from one service to another.

The **Bluesheet** reports dealer Bid levels for sight-unseen coins. Dealers may pay even more depending upon their needs, but remember, pricing changes are an enduring characteristic of the coin market. Bids can increase or decrease dramatically; without current market information, making informed buying or selling decisions is impossible. You need the **Bluesheet** now!

GOLD FUTURES HIT 27-YEAR HIGH
EBAY REVAMPS LISTING POLICY

The Market in Depth

Everyone who collects, or deals in rare coins is affected by the activity of precious metals. Recent action has indeed been significant as Spot Gold has maintained its streak above \$700 for 8 days, longer than any other time in history. Gold shattered another record by touching on a 27-year high in futures trading. This occurred just after the Federal Reserve Bank's Open Market Committee meeting where it was decided to aggressively lower the Federal Funds Rate .50 basis points. Analysts expected an interest rate decrease to ward off today's financial worries. This reduction is bullish for Platinum, Gold and Silver, and the adjustment also bodes well for the rare coin market. Such good news is certainly welcome for many dealers who have been a bit nervous about the economy and its potential impact on their businesses.

One East Coast wholesaler tells us he's had a great deal of success selling the very expensive rarities that range from \$50,000 and up. He does notice though, that finding buyers for coins falling between the \$2,000-\$15,000 level is becoming more difficult. His market is quite specialized as it covers many high-quality, expensive Gold and Silver rarities. The biggest concern is pointing squarely at the future. Most analysts believe our economy hasn't experienced the full negative effects of the worldwide credit crisis. Fortunately, very strong demand still exists for early coinage and rarities that boast originality and are of pleasing, problem-free quality. For example, Draped Bust Dollars are doing quite well, especially in AU55 and better condition. Gold rarities are facing a mixed bag. One dealer told us Charlotte and Dahlonega Mint issues are rather sluggish currently. The exceptions are those "C" and "D" Mints that still retain their "original skin" and are solid for the grade. Quality, low mintage Gold coins, especially \$5 thru \$20 Liberties, are finding ready buyers. New Orleans Mint Gold is strong in all denominations. A mid-September transaction found an attractive NGC AU58 1850-O \$20 Liberty trade dealer-to-dealer for a price in excess of \$30,000. Early Gold continues to find plenty of demand at current levels, but unfortunately, dealers are finding it very difficult to buy this material at present. It appears many of these rarities have been removed from the market. Of course, there's always an opportunity for new acquisitions. In fact, the Stack's Autumn sale is currently underway (as we go to press) in New York City, and dealers will soon trek to the West Coast for the Long Beach Expo and its surrounding auctions as well.

Ebay has been tightening and refining its rules lately in regards to auctions of raw and certified coins. Sellers may not estimate the numerical grade with Sheldon numbers, place a value, quote a price guide or make reference to a grading service in the title or description when selling raw coins. In what is believed to be an attempt to help protect buyers from being misled by some self-slabbers, coins not certified by PCGS, NGC, ANACS or ICG are considered raw by eBay. An image of the entire slab—front and back—is now **required** when listing coins as certified.

This Week's Market

CENTS TIIRU HALVES: Early Lincoln rolls remain on fire as many of these Coppers from the 1930s escalate. Jeffcrsions continue to roll as the key 1939D-S power to \$3,300 and \$1,900 respectively. Most bullion sensitive are getting a boost courtesy of a jump in Silver Spot, yet all Proof roll denominations proceed to slide.

MERCURY DIMES: Mercs seem to have cultivatcd a bit of new interest as a quartet of scarcer entries are climbing the Bidding ladder. Leading the push are the popular 1921P-D, each reflecting higher offers in MS63 at \$1,125 and \$1,275 respectively. A fascinating numismatic enigma reveals that the PCGS/NGC community verifies only 3 MS63 1921 Philly strikes and a modest 10 graded higher in the non Full Band moniker. Conversely, those designated Full Band in Choice and better claim 393.

WALKING LIBERTY HALVES: As the season makes ready for a change, most early players and keys find viable suitors lined up. The tougher 1935D has even discovered a higher paying audience as MS63 & MS64 examples inch higher. Yet four Walkers from the short-set have taken a breather as this quartet from the 1940s eases back in Gem.

DOLLARS: Morgans have begun to round the corner as a more balanced curriculum of support has been established. Of course the recent increase in Silver Spot has also brought some newcomers into the mix. Generics are the first reflecting this as Gems move up, topping \$114 Bid. The always in demand DMPLs are flaunting another wave of advances. Support is overwhelming for Peace Dollars in Choice and better as one of the keys, 1927S, moves up to \$335 in MS63.

PROOF SETS AND MINT SETS: As almost always, the 1936-42 Proof Sets have an appreciative and active buying public. On the negative side, over a dozen later entries are falling back a bit. Mint Sets maintain a positive flavor, though, as the 1970 Small Date jumps to a \$50 Bid.

COMMEMORATIVES: Another group of Classic Silver issues are wearing minor losses this week. Fortunately, the demand for well-struck coins with original surfaces in high grade continues. For a change, the Classic Gold ensemble is the ambassador of strength and continuity here. Perhaps a surging Gold Spot has lured some back. Regardless, buyers are beginning to see some opportunity as they return at present levels.

TYPE: As the voracious throng of eager collectors make their demands known, dealers try to capitulate. Yet as buyers attempt to recruit suitable examples to fulfill yesterday's Type want lists, they will also have to contend with some new culprits. Take a look as Classic Half Cents find Brown MS65s bouncing to \$865 and Barber Quarters are a shave higher in MS65 reeling in \$1,050.

GOLD: As Gold strengthens its stand and approaches the \$720 mark, a hectic and concerted assault of advances floods all Gold Type below. Savvy buyers prefer spot-free examples and are willing to pay a premium for such quality. Those leading the rush are the \$3 Princesses cavorting with a new crowd as MS65 examples increase by \$500, and the ever popular and tough \$5 Indians claim a new happy hunting ground to the tune of \$14K in Gem.

The weekly COIN DEALER newsletter (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark—these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or "put together" bring lower prices. Gem full strike Walking Liberty rolls (particularly the 5-mint issues) are worth more than listed prices. M5-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN

I would like to bring your attention to the terrific assistance I was given by Dale Larsen during the sale of my extensive coin collection. Dale took the time to explain each factor that is used to determine a fair and reasonable value of my collection. Any question that I had was quickly answered by Dale. My experience with Spectrum has been very positive. I would not hesitate to recommend Spectrum Numismatics to anyone wishing to sell their collection. Thank you.

Sincerely,

In addition to its world-class Professional Conservation Service, NCS provides comprehensive certification services that include Authentication and Encapsulation & Details Grading for coins with irreversible detrimental surface conditions or damage (commonly known as “problem” or “no-grade” coins). All coins encapsulated by NCS are authenticated and guaranteed to be genuine. At your request, coins can be described on the holder as Genuine, or given a Detail’s grade.

Using the NCS holder, made from the highest-quality inert materials, these two encapsulation services provide long-term storage options that promote your coin’s longer-term stability and serve as a preventative conservation method.

Any item submitted for NCS encapsulation that is suitable for non-problem coin grading will be transferred to NGC. Extensive variety and error attribution services are also available.

For more information on NCS Certification and Encapsulation, please visit www.NCScoin.com.

The weekly COIN DEALER newsletter (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCGS, NCI, ANACS, NGC, and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose bid is represented within. Therefore, a specific coin could be worth more or less than the listed Bid price. For listed Bid prices of coins certified by ANACS, NCI, PCGS, and NGC please refer to the Certified Coin Dealer newsletter.

The Market in Depth

Dealers have left California feeling satisfied with their Long Beach Expo results. Clearly, demand is robust considering the combined auction totals from Superior, Goldberg, Bowers & Merena and Heritage exceeded \$24 million. Heritage alone realized \$11.3 million with their U.S. Coin offerings. A few highlights include a PCGS MS65RB 1812 Classic Head Large Cent, Small Date, pulling in a whopping \$69,000. A 1794 Flowing Hair Half graded VF35 by NGC was hammered at \$40,250. A PCGS MS65 1908D Half Eagle captured \$43,125. Finally, a strong Bidder won a PCGS MS66 1894 Silver Cartwheel for a remarkable \$92,000. Of course buying was extremely competitive and difficult on the bourse as well as at auction. In most cases, buyers had to pay more than originally intended for select items, but they did so willingly. As the Long Beach show and surrounding auctions demonstrated, today's collectors are lining up and willing to spend strong money for coins that meet their strict qualifications. Is it the excitement of Gold Spot rising to levels not reached in nearly three decades, or a blossoming of collector sophistication? Perhaps it's a little of both. Whatever the cause, interest in high quality, rare coins is growing, and in particular, demand is becoming more advanced. Additional evidence of increased collector astuteness may be derived from the shift in attendance at this year's convention. Typically, Friday and Saturday are the most active with the general public, but it was the first day that had the greatest strength this time around. Eager collectors were looking to get the first shot at any new offerings, and were unwilling to miss their opportunity to cherry pick and join the excitement as soon as possible.

Gold most likely played a positive role during the show, at least lifting the spirits of some of the nearly 5,000 in attendance. Instead of dropping, as some expected, the precious metal climbed during the expo, and continued to do so throughout. While some were understandably cautious in trading Generic Gold, others were willing to spend hundreds of thousands to acquire it. Early coinage was also quite popular at Long Beach, commanding exceptional demand and prices realized, both on the bourse and at public auction. Rare key and semi-key dates garnered their share of attention as well. Better date Morgans, for example, were just not available on the bourse. Another important aspect of last week's expo was the massive PCGS grading set display. This exciting assembly included multiple examples of the most popular U.S. coins from grades AG3 to MS67. In addition, a full case of problem specimens in PCGS slabs was presented. Of course, these coins, offered for educational purposes only, were clearly labeled as being whizzed, artificially toned, environmentally damaged, cleaned, etc. Still, it was a strange and entertaining sight to see such material in a PCGS slab, as opposed to a body bag. This collection also included counterfeit and altered coins, one of which duped several experts: A Gem 1927 Saint-Gaudens with an added D mintmark.

Along with local and regional shows, this month offers the Whitman Coin and Collectibles Atlanta Expo, scheduled October 11-13, including the Capital City Sale by Stack's. The Silver Dollar and Rare Coin Exposition follows in Saint Charles, October 12-14, with an auction by Scotsman. Finally, the highly promoted Coinfest will take place October 27-28 in Old Greenwich, Connecticut.

This Week's Market

CENTS THRU HALVES: Jefferson Nickels maintain positive momentum as two of the keys to the series, 1939D-S each roll up sizable \$200 advances. Courtesy of Silver Spot's spurt, all bullion sensitive rolls are escalating. While dealers are still trying to sell modern Proof rolls at Bid, their slide continues.

MERCURY DIMES: A well-known West Coast dealer has made his presence known, putting the call out for quantities of common Full Banded Gems. Other troops within Winged Liberty's garrison, especially the keys like the 1916D, both 1921 issues and both 1942 overdates maintain solid fortification as multiple buyers are lined up at current Bid.

WALKING LIBERTY HALVES: Early Walkers continue to accentuate the positive as a trio of better San Francisco deliveries from the short-set are seen on the run in Gem. As this rejuvenated series heats up this fall, dealers are looking to secure hundreds of mintmarked MS60 examples at \$28.

DOLLARS: Generic Gems are getting stronger, as the commoners are seen topping \$116 Bid. The popular and only affordable 1894 issue in Mint State finds that the San Francisco installment is generating keen demand as MS63-MS65 examples are on the move with Gems claiming \$5,350. The rare and arguably "King" of the Morgan's 1895 Proof only striking is courting solid demand as lightly circulated specimens through PR64s are rising as the latter powers to \$46K. DMPLs are the show stoppers once more with a plethora of plus signs enveloping as many as you would care to shake a stick at. The Peace Dollar alliance reports in again on the quiet side, yet hearty demand fosters the lion's share.

PROOF SETS AND MINT SETS: Proof Sets continue to recuperate from their recent setbacks. With holiday demand on the doorstep, many slightly better issues are getting some attention as the 1957 installment inches to \$19. Mint Sets are also enjoying a stronger pulse as the popular 1970 Small Date tops \$55.

COMMEMORATIVES: The majority of the Classic Silver issues remain soft. And while the Classic Gold ensemble isn't the picture of health, they are definitely getting back in the swing of things. Many have viable support, and the popular 1915S Pan-Pac Quarter Eagle flutters a bit higher in MS64 taking a \$4,825 Bid.

TYPE: Draped Bust Quarters are exposed to elevated action as they pad their Bids in Circ-MS60 with the latter taking \$5,300. Matte Proof Lincolns are also scintillating as those with full Red designation are on fire in PR63R-PR65R.

GOLD: With the inevitable profit taking occurring as speculators cashed in on Gold's recent ascent, a subtle shuffling is going on for some generic Gold Type. Yet even though the golden jet has eased back a bit on the throttle, the yellow metal is still safely situated in the \$730 range. Accordingly, demand for spot-free Gold Type during these volatile times remains constant yet selective. No Motto Eagles are scoring big time as tough Very Choice coins catapult to \$20K.

The weekly COIN DEALER newsletter (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified sight-unseen market, which already include consideration of certification costs. Bids for a sight-seen "raw" coin may be higher or lower than for a sight-unseen certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark—these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or "put together" bring lower prices. Gem full strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT: Mercury & Walker singles are in the CDN.

COINS (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN.

DEMAND ROBUST IN OCTOBER GOLD STREAK CONTINUES

The Market in Depth

While the leaves have already begun to change color, the rare coin market demand remains green. Buyers are still hungry to fill their collecting needs, and they know it will take a lot of green to buy the better date and quality coins they are seeking. These special specimens that have original, problem-free and attractive surfaces often appear on the market when an old-time collection is sold at public auction. Unfortunately, the number of such collections coming to market has been dwindling, and thus the supply of better material is somewhat short. In these circumstances, Bids must be aggressive to be successful. Despite this demand/supply imbalance, dealers are definitely encouraged by the market's current strength. Many have already made their way to the southeast United States to attend the Whitman Coin and Collectibles Atlanta Expo in Georgia, scheduled for October 11-13. Stack's 72nd Anniversary Sale in New York, October 16-17, is next. Scotsman will host the Collectors' Auction October 19 in St. Charles, MO in conjunction with the Silver Dollar and Rare Coin Expo. This busy month of auctions rounds off with the much anticipated Coinfest, October 27-28, in Greenwich, Connecticut.

In addition to the more than \$25 million in sales occurring at California public auctions in September, further evidence of the current strength in the rare coin market is found in a recent gargantuan sale. Two high-powered, rare Gold Eagles claimed \$6.7 million in a private sale: An NGC Proof 65★ Ultra Cameo Plain 4 1804 \$10 Capped Bust brought \$5 million, and a PCGS PR65 1838 \$10 Classic Head was captured for an additional \$1.7 million. It seems no matter what is happening in the general economy, when exceptional classic rarities become available, a buyer is waiting to stake his or her claim. Consequently, the importance of having a solid inventory of quality and interesting coins cannot be underestimated for achieving profit and success. Maintaining one's contacts is also paramount.

Although the price of Gold bullion has backed-off somewhat from its 27-year high due to profit taking, the precious metal is still healthy enough—with Spot above \$735—to keep demand flourishing and customers looking for more. In fact, Spot has been above \$730 for twenty of the last thirty days, and above \$700 for over a month. Gold has never maintained such strong levels for any length of time, as past peaks only lasted a few days at most. This unprecedented streak has certainly had, at the very least, a significantly positive psychological effect on the rare coin market in general, and on Gold coins in particular.

This Week's Market

MERCURY DIMES: New demand abounds in Circ as most scarcer material continues to thrive on dealer advances. Mint State examples have more than their share of ardent followers too, as the scarcer 2nd year 1917S tops \$1,050 in MS65FB.

WALKING LIBERTY HALVES: This lovely series seems to be on the rebound in several areas. Early rarities are always in vogue, and the tougher middle dates have also achieved stability. Yet as the better 1943S takes a hike to \$370 in Gem, it's the short-set which remains hot as most in Choice and better are desired in volume.

DOLLARS: Morgan mongers have yet to satisfy their thirst as the hunt continues for properly graded and scarcer material. Now as the tougher and sometimes overlooked 1904 climbs in Choice through Gem—the latter commanding \$2,600—we also observe quantities of the more generic offerings are still required. Peace Dollars have made some noise as Gem commoners now claim \$130 Bid. The key 1928S travels higher in Very Choice and better as MS65 examples power to an impressive \$15K. Always desirous, the recognized key 1934S flashes new respect too, as MS64s trek to \$4,600.

PROOF SETS AND MINT SETS: Active buyers are still enthusiastically looking to secure the key early issues from 1936-42, yet several more later editions, including the 1990 "no S" issue, are losing ground in an attempt to make amends with buyers. Mint Sets are also on the quiet side. Perhaps the 2007 Mint Sets, on sale now, will spark some interest considering the new packaging will allow a rim view to accommodate the Presidential Dollar's Edge Lettering. The set now includes 28 coins, which is eight more than last year, and yes, they will continue to sport the Satin finish that was introduced in 2005.

COMMEMORATIVES: As a trickle of classic Silver Commems ease back, this proud unit appears to be rounding the corner with some dealers. As for Gold Commems, the 1926 Sesquicentennial Quarter Eagle flutters to \$1,200 in MS64. The show stoppers this report are the dynamic \$50 Pan-Pac slug duo, as each mounts up considerable action via increased Bids.

TYPE: 1793 Half Cents are off to the races in Good-AU as the latter ratchets up to \$22K. Big brother, 1793 Large Cents, both Wreath and Chain, are also linked to advancing Bids. Key early Silver finishes off the flurry as the coveted one-year Type 1796 Quarters will attest. Proof Type features an encore as Matte Proof Lincolns have been elected once more to receive solid gains with Bids up by as much as 22%.

GOLD: As Gold Spot settles into its new digs, dealers appear to be adjusting to the higher rent district albeit a bit apprehensively. Regardless, most generic Gold Type maintains a foothold of support. In fact, several in elevated grades are on the move as the Type II Gold Dollars lead the way bouncing ahead in a trio of Bid columns as the very tough MS65s top \$28,400.

The weekly COIN DEALER newsletter (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCGS, NCI, ANACS, NGC, and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose bid is represented within. Therefore, a specific coin could be worth more or less than the listed Bid price. For listed Bid prices of coins certified by ANACS, NCI, PCGS, and NGC, please refer to the Certified Coin Dealer newsletter.

1995 W Olympic Stadium BU / 1995 W Proof					Numbers are used as shorthand for adjectival grading. The following descriptions are used throughout the CDN to designate the exact quality of Brilliant Uncirculated coins. Grade descriptions do not necessarily apply to modern government issues because they are handled more carefully when minted; therefore, they are all usually high grades.									
1996 W Flag Bearer BU / 1996 W Proof					MS60-Unc.: May not have full mint lustre, may be dull, toned or spotted. May be the worst possible example, shows no wear or damage. Will be bagmarked and/or weakly struck.									
1996 W Cauldron BU / 1996 W Proof					MS63-Choice BU: Brilliant Unc. (may exhibit some toning, but it should not be so dark as to hide any problems); will have minor bagmarks and may show weakness of strike. Above average coins.									
1996 W Smithsonian Anniversary BU / 1996 W Proof					MS64-Distinct BU: Far and away nicer than MS63, yet a near miss MS65. Few Contact marks in field, only minor marks on main devices. Full strike, with eye-appeal. Attractive toning permissible.									
1997 W Jackie Robinson BU / 1997 W Proof					MS65-Gem BU: Sharp, full strike, full lustre. NO major distractions in field or on main devices. Attractive toning permissible. A very tiny percentage of available BU coins make this no-question grade. Must have eye-appeal.									
1997 W Franklin Delano Roosevelt BU / 1997 W Proof					MS67-Superb: Will be 100% fully struck and virtually perfect in all other respects. Prices of such seldom encountered specimens are based upon the merits of each coin. They range from very scarce to unknown according to date.

. . . a Friday morning report on the Coin Market

COLLECTOR DEMAND DOMINATES DEEP SOUTH

PRECIOUS METALS CLAMBER TO RECORD LEVELS

The Market in Depth

Dealers arrived in Atlanta to attend the Whitman Coin and Collectibles Expo with high expectations. On the heels of Long Beach success and in the midst of tremendous precious metal strength, the mood was certainly one of excitement and optimism, making for a satisfying and successful show. Sometimes dealers are faced with too much of a good thing, though. Consider that the Whitman show, the Silver Dollar and Rare Coin Expo, and the highly promoted Coinfest were scheduled for back-to-back-to-back weekends. Of course for some, attending all three events would be too hectic and tough on expense accounts. Consequently, many dealers have chosen one or two of the three. While there were possibly fewer dealers in attendance than would have been the case if two additional important shows hadn't been scheduled on the following weekends, the Atlanta Expo was certainly well attended, and has been growing steadily over the years.

The main challenge in Georgia was the very same that dealers have been facing throughout much of 2007—finding quality material. Fortunately, several attendees were able to rise to that challenge and capture some prizes. One East Coast dealer said he bought a nice group of collector coins consisting primarily of better date Barber Half Dollars in circulated grades. Of course, these types of coins are prominently displayed on collectors' want lists. This dealer ended up paying above Bid to buy the select examples he needed, but he was extremely grateful to have the opportunity, considering the competition for such material. Indeed, many dealers were hunting aggressively for better date Barber and Liberty Seated coins on the Atlanta bourse. Perhaps not surprisingly, Gold was also quite active.

Speaking of Gold, the rare coin market is certainly benefiting from the strength of the precious metal, which is trading at levels not seen since January 1980. Spot is currently \$757 per ounce. Not to be ignored, Platinum has continued to set new all-time highs, and is now at \$1,424 per ounce. Higher metal prices have been great for dealers as they have been profiting from more people entering their shops as well as increased phone and internet sales. This extra money couldn't come at a better time as dealers try to spruce up their inventories and satisfy their customers. Holders of common date Gold and bullion have benefited with increases for every denomination in every grade. Rare date Gold is also enjoying strong demand. Higher Bids are seen for Quarter Eagles dated 1796, 1838C and 1839/8 in Fine thru MS64, as well as for 1839 Fives in MS62.

Stack's hosted the Capital City sale October 11, in Atlanta, and it hammered \$1.68 million. At right are a few of the many highlights.

This Week's Market

CENTS THRU HALVES: The Copper fetish continues as early Lincolns roll. Jubilation follows many Jefferson Nickels too, as the popular 1939S powers to a solid \$2,250 Bid. Courtesy of Silver Spot's buzz, all bullion sensitive disciples bump ahead. Rounding out the flurry, sundry State Quarter rolls are getting a boost as well.

MERCURY DIMES: Key Mercs are rising! Feast your eyes on one of the early 20th century rarities as the revered matriarch of the conclave, 1916D, is soaring high. With an advance of over 10% the coveted Full Banded MS65s race to \$40K. Another key in the assembly, 1921D, is also eagerly awaiting inclusion in inventories as Choice examples claim \$1,300. Rounding out the sortie, buyers are on the stump for both mintmarked 1928s in Choice and better.

WALKING LIBERTY HALVES: Walkers also find inspiration from their inaugural offerings. Take a look as both 1916P-D are courting a renewed admiration society as the pair is marching up tempo in Gem claiming \$1,400 and \$1,900 respectively. Although a bit mixed, the beat goes on for the short-st too, as concerted demand surrounds most.

DOLLARS: Morgans always seem to be at the numismatic epicenter, and although only mild rumblings are felt in this report, activity is picking up. As collectors continue to clamor for both scarce and rare examples, MS64 commoners top \$45, and the focus on the 1904 continues as Gems muscle to \$2,660. DMPLs keep their streak going as over 2 dozen advance. Peace Dollars quietly maintain a solid regimen of visible support as compatriots hold the fort.

PROOF SETS AND MINT SETS: Most late date Proof Sets are in a sea of discontent. Yet as a host rolls back, attempting to stem the tide, a pair from the late 50s is inching higher. Mint Sets on the other hand are counting on their supporters, thankful that no dissension is visible.

COMMEMORATIVES: Although not on life support, Classic Silver Commems are in need of a booster shot. Yet as several more varied entries shuffle back, calculating enthusiasts are making the rounds, attempting to cherry pick desirable, well-struck specimens at these enticing lower levels. Low mintage Classic Gold is getting a bit more attention, yet a few in high grade have taken the escalator down a floor in search of customers.

TYPE: This market segment has always been the cornerstone for many great collections; the problem for dealers is just locating any quantities of quality material. No easy feat as much early federal Copper and Silver has been mistreated by Mother Nature or mangled by the non-numismatic brethren. Liberty and Buffalo Nickels are on the move as are the ever popular Circ Capped Bust Halves.

GOLD: As the Golden juggernaut continues to reach higher terrain, the demand for Gold Type is at a fever pitch. Buyers are lined up in queues searching for volumes of unspotted, eye-appealing examples of all denominations. A crescendo of plus signs envelope VF through MS67 columns.

The weekly COIN DEALER newsletter (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight–seen**. The coins may be certified or “raw” (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight–unseen** market, which already include consideration of certification costs. Bids for a **sight–seen** “raw” coin may be higher or lower than for a **sight–unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. **INVESTOR/COLLECTOR NOTE:** The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark—these bring lower prices, "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or "put together" bring lower prices. Gem roll strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN.

. . .a Friday morning report on the Coin Market

PRECIOUS METALS MAINTAIN STRENGTH

MARKET HOT FROM COMMON TO ULTRA RARE

The Market in Depth

This Week's Market

Hectic activity continues as dealers tell us they are very tired, but still excited about the current market. Much of this excitement is the result of resilient Gold, Silver and Platinum prices. Precious metals are retaining their recently achieved strong levels, enjoying a record pair of months for September and October. Many are expecting higher levels before the end of the year. Imagine that just one year ago, Gold was at \$579 per ounce, and now it's nearly \$200 more. This unprecedented streak above \$700, with the last 30 days above \$725, has clearly enhanced an already robust rare coin market.

Those returning from the Silver Dollar and Rare Coin Expo are certainly weary, as the torrid show circuit is beginning to take its toll. Many who made the trip agreed that there could have been more dealers and collectors at the Expo, and as with any show, there could have been more quality coins to buy. Still, some dealers were able to leave Missouri feeling relatively pleased. One dealer said that while he only bought about two thirds of the amount he purchased in Atlanta, he was prepared to buy more. In one transaction on the St. Charles bourse, he bought 59 circulated \$20 Liberties in grades ranging from VF-AU for \$43,660, or \$740 per coin. Trading in the common date Gold and Silver coins has been very active, due in part to Spot's recent and significant increases. Keep in mind that common date Morgans have been going up week after week. In another purchase on the bourse, the same dealer was able to buy an attractive, Very Fine thru Uncirculated set of Morgan Dollars for \$21,000 from a collector. Aside from the Proof only issue, this set has all the key dates, such as an XF 1893S and an AU 1893CC. While the Silver Dollar show was not quite as busy as some had anticipated, dealers were generally satisfied with their wholesale transactions at the Expo by its conclusion.

Scotsman's Collectors' Auction, held Oct. 19, realized just over \$1 million. Some of the many highlights include: a PCGS AU53 1893-S Morgan Dollar at \$20,125; a PCGS MS62 1812 \$5 Capped Bust which realized \$14,375; and an NGC AU55 \$10 1803 Capped Bust, Small Stars that sold for \$21,563. For the most part, dealers won't be getting much of a rest because the heavily promoted Coinfest show in Greenwich, CT is up next, Oct. 27-28. Following that, it is on to the Santa Clara Coin, Stamp & Collectibles Expo in California, Nov. 1-4. The Santa Clara Elite Coin Auction by Superior will be held Nov. 1. A few highlights include: a PCGS MS64FB 1916-D Mercury Dime; an ANACS PR63 1847 Liberty Seated Dollar; an NGC PR65, Ultra Cameo 1889 \$2.50 Liberty; and an NGC Matte PR65 1915 \$20 Saint-Gaudens.

MERCURY DIMES: As recent advances remain in force, stability and demand still reign supreme. In fact, many vocal enthusiasts are heard raising their cry for scarce and Full Banded specimens an octave or two. As their passion persists, dealers tuned in to their pleas will attempt to snap up a supply of pearly white frosty candidates for want lists and inventory.

WALKING LIBERTY HALVES: Passion perseveres as this attractive series has made solid inroads toward buyers' acceptance. Not wanting the overall picture to slide to the negative, several scarcer Walkers from the popular short-set of players keep the positive flow going as the 1942D and 1943D-S climb in Gem.

DOLLARS: Morgans are feeling the heat as commoners push to \$120 in Gem. A host of better issues are also targeted as those primarily under the collector friendly \$500 price tag are ratcheting higher. DMPLs don't disappoint either as a quartet escalate. Peace Dollars are beginning to fall into place too. A handful of scarcer dates are stirring with action, led by the popular 1921, as Very Choice examples top \$690, and rounded out by the solid advance chasing the 1934D to \$575, also in MS64.

PROOF SETS AND MINT SETS: As quiet decorum settles in for a change, the near silence appears to be golden for the Proof Set contingent as the 1979S Type II issue tops \$87 Bid. Mint Sets have also rebounded for this report as the 1962 and 1970 sets inch higher with none sounding the retreat.

COMMEMORATIVES: Classic Silver Commems, although mightily attempting to flush out supporters, find most of the conclave on a virtual treadmill to oblivion. The main casualties this report are the "Palmetto State" South Carolina issues, as PDS Sets and Type shuffle back across-the-board. Even the good news is tempered as the tough to find properly graded Hudson claims a higher \$1,200 offer in Very Choice, only to observe that MS65 examples are drifting down river. Luckily, several prime time players like the Antietam, California Jubilee, and Lincoln are reflecting stability and value. The "Golden 11" appears to be gaining momentum and visible strength as no dissenters are present and viable Bidders are stepping up for several in MS64 and better.

TYPE: No gargantuan gains here, yet dealers are still fighting tooth and nail for most Type as they fervently accelerate their quest for top caliber material. Yet for a change this installment caters to the more entry level offerings. Making noise are the diminutive 3¢ Silvers as all three Types of Trimes are buzzing in Circ. Type one Buffalos are also grazing on higher ground as are the always desired Capped Bust Halves.

GOLD: As the golden express rolls along, many buyers apprehensive on boarding earlier are giving it serious consideration. Now as enthusiasm and the lure of the yellow metal persist in the \$750 district, we note that better Gold Type such as \$3 Princesses are rewarding us with a triple Bid jump, and the always well received \$5 Indians claim \$15,200 in Gem.

The weekly COIN DEALER newsletter (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

GOLD & SILVER PROPEL MARKET

CAC DEBUTS AT SUCCESSFUL COINFEST

The Market in Depth

Surging precious metal prices have dealers optimistic about the future direction of the rare coin market. Gold crashed thru the \$790 per ounce plateau as Silver kept pace, vaulting to the mid \$14 per ounce range while Platinum continues to trade at record levels. Pundits assert elevated metal prices are usually a precursor of future inflation. This scenario is, in part, what's driving many towards the rare coin and bullion arena as they look to diversify some of their holdings in the event that the economy and their other investments head south. Those new to the market usually gravitate towards purchasing **common date** \$20 Libs and Saints as well as Morgan and Peace Dollars. CCE, an electronic dealer trading network recently suggested that \$300,000,000-\$400,000,000 of this material is bought and sold annually and they are in the process of changing the way these "super generics" are traded when using their exchange. Soon placing sight-seen Type Bids and Asks will no longer be an option. Beginning November 1 only **sight-unseen** Bids and Asks will be accepted for these PCGS and NGC graded coins, and only from CCE Generic Market Makers. This has already created quite a stir as most dealers currently pay a premium for spot-free generic Gold and white Dollars, while offering less for those that are spotted or toned. PCGS has indicated that they will soon release guidelines in relation to spotting problems within specific coin series. Gold, American Silver Eagles and Silver Proofs (1950-64) are just a few of the market segments that are being addressed.

Most dealers that attended Coinfest, held in Greenwich, CT October 27-28 were extremely satisfied with their results and are eagerly anticipating future shows. Several voiced that attendance was solid throughout the event resulting in terrific retail traffic and business. In addition to many first-timers at Coinfest quite a few astute and veteran collectors made the trek as well. In their debut appearance, Collectors Acceptance Corporation reported that nearly 800 PCGS and NGC slabs were submitted by collectors with 75%-80% receiving the coveted CAC sticker. This small green tamper evident sticker placed on the slab represents that the coin is deemed solid to premium quality for the grade. CAC stickered slabs will soon be noticeable in dealer display cases as submission kits have just started being distributed. Dealer attendance was also terrific, affording a fair amount of wholesale activity as a number of California dealers made the flight while east coast dealers enjoyed the opportunity to drive. An east coast dealer that had a great show said that Gold was active on the bourse, especially better date examples. He happened to be looking for Proof Gold as well as for Charlotte and Dahlonega Mint issues. He was extremely pleased because he was able to buy an 1881 \$3 Princess graded PR64 by NGC for just under \$40,000. This is an extremely desirable date as it boasts only 500 business strikes combined with just 54 Proof examples.

This explosive demand should continue to propel the market thru November and for the balance of 2007. Dealers realize that they won't have too much time to rest as the Santa Clara Coin Expo and Superior auction are up next Nov 1-4. The Baltimore Coin Convention and Bowers & Merena auction will follow Nov 16-18.

This Week's Market

CENTS THRU HALVES: Lincolns just won't take a break as the heat is on for those early Coppers although demand is pushing some later installments as well. Jefferson Nickels also revel in continuing action with the accent on many from the 1940s decade.

MERCURY DIMES: Active buyers are still lining up for this popular series. Not only are the Full Banded elite harvesting attention, it's the mid-to-high end quality Circ keys and semi-keys that continue to march higher. With that said buyers are on watch for the always in demand 1921 topping \$1,150 in Choice followed up the ladder by 1928D-S in the same grade.

WALKING LIBERTY HALVES: As the scarcer 1935D is advancing in MS63-MS64 the immense popularity of this series continues to attract veteran collectors as well as new enthusiasts that may have been first introduced to Walkers as an offshoot courtesy of the American Silver Eagle program. Whatever the circumstances a well-balanced attack is found searching out early rarities as well as multiple frosty white examples from the short-set.

DOLLARS: Morgans appear to be strengthening their case as active buyers and Silver frenzied collectors are lining up for these majestic cartwheels. Yet as Gem commoners hold fast; we observe a resounding effort to secure one of the true elite members of this formidable roster as the 1892S charges ahead in MS65-MS67. Interestingly with a total PCGS/NGC community of 18 for this trio of grades we note that half have been awarded the impressive MS67 status. Peace Dollars aren't looking over their shoulder either as buyers for this short series maintain heightened visibility.

PROOF SETS AND MINT SETS: Proof Sets continue to cater to a cautious yet selective group. With the popular 1970 "no S" issue climbing to \$1,500 there may be quiet jubilation brewing in the ranks. Mint Sets second the motion as the inaugural 1947 and 2nd year 1948 Sets feature solid advances with no contraries present.

COMMEMORATIVES: Many of the Classic Silver Commem contingent could very well pay dividends for those calculating buyers as the well for bargain basement material may eventually dry up. Classic Gold has already shaken off the cobwebs and enterprising buyers don't appear to be afraid to tackle the majority of this ensemble at current levels.

TYPE: Time doesn't seem to be an ally for dealers attempting to restock inventories and fulfill outstanding collector want lists. The latest surge attempting to shake out Matte Proof Lincolns from the woodwork remains in full force and early federal Copper and Silver have all but vanished from the bourse and similar outlets. Indian Cents are whopping it up as they are scouted in Red and Brown and on the move MS63-MS64.

GOLD: As the golden drummer picks up the beat we appear poised to take the magic carpet ride to the next level. Not surprising we find a plethora of action chasing virtually anything that is yellow. As the demand for Gold Type comes to a raging boil buyers are carefully searching for spot-free representatives.

The weekly COIN DEALER newsletter (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-seen** "raw" coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions. you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

... ..

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. These prices may not conform to the grading standards as set by either dealers or grading services, such as PCGS, NCI, ANACS, NGC, and any other services may not conform to the grading standards as set by the dealer or dealers whose bid is represented within. Therefore, a specific coin could be worth more or less than the listed Bid price. For more information on the Certified Coin Dealer newsletter, please refer to the Certified Coin Dealer newsletter.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark—these bring lower prices. "Gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem" rolls (when available) bring higher prices. Gem full strike "Walking Liberty" bands" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or "put together" bring lower prices. Gem full strike "Walking Liberty" rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN.

GOLD STREAK UNMATCHED IN HISTORY

\$500K DAY IN GENERIC TRADES

The Market in Depth

Precious metals remain hot as Gold stands firmly above the coveted \$800 plateau, soaring over \$820 Nov. 6. A big difference between this market and that of Jan. 1980 is *sustainability*. While Spot did spike to \$850 nearly 28 years ago, this was a short-lived roller coaster ride. Today's surge is very different. Gold has been well over \$700 for two months—this has never happened—and it has continued to climb steadily. Silver is certainly following suit with real strength, now near \$15.50 per ounce. Let's not forget Platinum. This precious metal is selling at all-time highs, and is currently at \$1,484. Such strong levels have certainly provided a boost to the rare coin market. Many are feeling rather tentative, nervous and encouraged all at the same time regarding the overall economy, and more investors are considering diversification of some of their assets into rare coins and bullion. People want some security from possible inflation, and the current metal market is definitely appealing.

The Santa Clara Coin Expo was considered successful by many in attendance. Dealers that had an outstanding show were fortunate enough to have several of their good customers make the trip to conduct business. Some reported that the retail end of the market on the bourse was mediocre, though, with the common complaint of having a lack of fresh, original material. One specialist found his customers clamoring for nice, select Silver Commemoratives that have backed-off, such as the Monroe and Missouri issues. He was able to place a nice Isabella Quarter with one of his clients in attendance. He also said that quantities of nice Commems graded MS65 and better are still needed at the reduced levels. In another retail transaction, he sold a PCGS MS66 1915S Panama-Pacific Half Dollar for \$4,100. Clearly, there is plenty of money available for rare coins that feature nice, original, and attractive surfaces. The activity level in the market is considerable, and trading is occurring with the holidays in mind. Dealers are making an effort to obtain some of those tough-to-find better date coins before 2008.

Things are being done a bit differently when purchasing generic certified coins thru one electronic dealer trading network. In last week's *Bluesheet*, we reported on the debut of the CCE Generic Big Market, with over \$300,000 in sight-unseen trades occurring on day-one. Monday, Nov. 5 saw an even more impressive day, with nearly \$500,000 in sight-unseen sales for generic Twenties and Silver Dollars. This represents quite a difference from one year ago, when the first Monday of November saw only \$17,000 in **total** sight-unseen transactions via CCE. Of course, this common date material still commands a premium in attractive spot-free condition, as reflected in the sight-seen Bids below.

The Santa Clara Elite Auction by Superior realized \$727,000 on Nov. 1. Highlights include a 1916-D in PCGS MS64FB, which realized \$32,200, and an NGC PR65 Ultra Cameo 1889 \$2½, which brought \$23,575. As is often the case, there's not much time to rest, as the Baltimore Coin and Currency Convention is scheduled for Nov. 15-18. Bowers & Merena and Stack's are both scheduled to conduct auctions in Baltimore.

This Week's Market

MERCURY DIMES: Although some of the immediacy has been removed from the active Bidding ranks, there is certainly no rush to jettison material here. As veteran collectors' approval ratings remain high, the newcomers entering the market may very well test the limited supply lines. Yet for the moment, dealers remain sensible yet omnipresent with their Bids as they keep a watchful eye for rarities like the 1916D as well as volumes of Full Banded generics.

WALKING LIBERTY HALVES: This attractive series appears to be building momentum. With the emphasis on those from the 1930s on, these scarcer Walkers emerge revitalized, as they maintain a sprightly pace. Quality short-sets continue to impress as well, as the key to the 20-piece ensemble, 1941S, claims \$880 in Gem.

DOLLARS: Although several better date Morgans are revealing modest declines, the overall tenor is upbeat as the desire for these large Silver coins is punctuated with the surging Silver Spot. As the influx of new enthusiasts clamors for these affordable century old classics, we observe the popular Carson City deliveries from 1883 and 1884, each advancing to \$325 in MS65. Peace Dollars display continued supportive interest. In fact, one wholesaler is offering instant gratification to Peace fanciers with the complete 1921-1935 series grading PCGS MS64, including a sprinkling of "green tag" slabs in the mix for \$16,650.

PROOF SETS AND MINT SETS: Strength and buyer bias embrace early Proof entries with the weakest links once again being those regular issues dated 1970 and later. Some of the less popular Modern Silver Sets may be ripe for the melting pot, especially considering current Silver Spot. As a substantial quantity ease back, Mint Sets share a similar scenario and flavor.

COMMEMORATIVES: With only subtle housekeeping observed, dealers may have shored up their cash positions with an ample supply of those that were deemed expendable. Stability is definitely in the offing here, as more than a smattering of supporting Bids is finally enveloping the Silver landscape. Exploring higher frontiers are the popular Boone Type, with increases in XF thru MS60. As the Classic Silver Commems attempt to round the corner, the 11-piece Gold entourage is securing further buyers' adulation at current levels.

TYPE: Dealers' concerted efforts to round up a supply of quality Type is still a tough ticket to punch. Silver cartwheels are spinning higher as both Liberty Seated Dollar Types are on the move in several grades with MS64s each commanding a \$5,800 Bid. Rounding out the Silver streak is the tough to find, properly graded Trade Dollar, bargaining for a \$3,500 Bid, also in MS64. Brilliant Proof Buffalo Nickels are stamped even too, as this American classic is on the move in PR63-PR64.

GOLD: Gold explores territory only traversed once before, and the reverberations and ramifications to the Gold Type sector are enormous. Cause for jubilation for some and desperation for others, demand for Gold coins is at a frenzied level. Certainly dealers need to inventory, yet caution is ever present in their selection of blemish-free examples. As a deluge of advances rain on the field below, the largest percentage gain finds the Type III \$20 Libs as MS65s race to \$4,400.

The weekly COIN DEALER newsletter (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight–seen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight–unseen** market, which already include consideration of certification costs. Bids for a **sight–seen** "raw" coin may be higher or lower than for a **sight–unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCGS, NCI, ANACS, NGC, and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose bid is represented within. Therefore, a specific coin could be worth more or less than the listed bid price. For listed bid prices of coins certified by ANACS, NCI, PCGS, and NGC, please refer to the Certified Coin Dealer newsletter.

. . .a Friday morning report on the Coin Market

GOLDEN SURGE EASES BACK

CORNUCOPIA OF ACTION IN BALTIMORE

The Market in Depth

Some overdue profit taking and a multitude of sell orders have pushed the Golden juggernaut below the \$800 perch as we go to press. After six days above this high benchmark, compared to the 2-day peak in 1980, Gold has settled, at least for the moment, at \$797. Certainly, this ride has been a volatile and historic one. Whenever there is a run-up in any commodity, established buyers, as well as those on the sidelines, are inevitably caught up in the media circus and want to get in on what's hot. For some numismatic neophytes, it's akin to the fast approaching holiday rush as parents are searching high and low for that *gotta have* toy. Nevertheless, savvy buyers and collectors have been through a similar scenario for what seems like nearly a lifetime ago.

It is perhaps hard to fathom for some newly introduced to the roaring numismatic mayhem that Gold Spot was as low as \$255 an ounce in 2001. Now, just six years later, Gold has enjoyed a dazzling 2-month escapade in the rarely visited \$700 plus neighborhood, after years of flirting. Some buyers are still waiting patiently to profit on \$850 Gold that was bought over 27 years ago. Precious metal analysts have stated that a slight correction would be healthy for the yellow metal's long-term prognosis. Of course, it is still a hard pill to swallow as dealers place their livelihood on the line. It's a delicate balancing act when placing buy orders for any significant quantity of generic \$20 Libs and Saints. Some of the current inventory was bought near the peak of the present run-up, but through dollar cost averaging, the loss incurred will be buffered by those coins bought on the way up the ladder. Even in the face of Gold's interim profit taking, a solid statement can be interpreted by the nearly \$300,000 in recorded transactions on one of the electronic trading networks during the normally quiet Veterans Day. A large portion of the coins traded on Monday's holiday were for sight-seen quality, representing a departure from what has been reported recently, as those sales were almost exclusively for super generics. Regardless, the raging metal's fire is keeping the entire coin market hot from top to bottom.

Further evidence of today's rare coin market strength is found by observing the multi-million dollar deals that are occurring with regularity. In fact, a \$30 million dollar transaction just took place involving the sale of over 1,000 Patterns. Legend Numismatics brokered the exchange, which is described by Laura Sperber of Legend as the largest private sale of one person's collection in the history of numismatics. Clearly, demand for fresh, original material is huge, and it is needed in quantity. Dealers are still scouring each major show for everything from collector coins thru 6-figure rarities. As the 2007 whirlwind winds down, the quest to secure suitable material for lagging want lists and ever dwindling inventories continues.

Last week bore an additional outlet in Dallas where Heritage's \$7 million Signature Sale offered some much needed relief. The East Coast's rousing collector base will converge in Baltimore for the much anticipated convention November 15-18. On display at the show will be the only PR69 Ultra High-Relief Saint-Gaudens in existence, graded as such by both NGC and PCGS. Stack's will hold a pre-show auction, and Bowers & Merena will present their largest sale (in number of lots) ever offered.

This Week's Market

CENTS THRU HALVES: A herd of late date Buffalo rolls is finding greener pastures. Yet the spotlight is firmly trained on the resurgent Jefferson Nickel rolls as nearly every issue through the early 1950's is sporting significant action. Silver sensitive denominations capitulate to the prevailing Spot and move a bit higher.

MERCURY DIMES: As buyers jockey for position, a few well-known players are still skirmishing for volumes of common Gem and Full Banded examples. Support also exists for rarities and scarcities as multiple offers are lined up for them in Circ. through Gem.

WALKING LIBERTY HALVES: Walkers continue to dazzle as a harvest of enthusiasm channels visible buyers to many of the better dates. There is no stopping the popular short-set as it still glitters, with the key 1941S advancing again in Gem, now topping \$920. A tougher pair of Denver issues, namely the 1942 and 1943, round out the action as each claims a \$310 offer in MS65.

DOLLARS: Morgans are a great starting point for both new collectors and established enthusiasts. What could be more appealing than century old Silver cartwheels in glorious frosty white Mint condition? As demand swells, MS64 commoners are inching up to claim \$46 Bid, while Gems remain stable at \$120. DMPLs retain frenzied jubilation as over a dozen advance. Leading the salvo is a solid \$500 gain landing on the desirable 1891 in 64. As only a scant 25 have been graded as such by PCGS/NGC, with only one higher, this tough coin may be still underrated. Peace Dollars are not giving up the fight as buyers maintain a viable stand for most while Choice and Very Choice generics press forward.

PROOF SETS AND MINT SETS: A quartet of later Proof Sets is attempting to rally the forces with modest increases. Mint Sets reveal much strength, yet a handful of post 1970's entries ease back a wee bit.

COMMEMORATIVES: Mild yet assertive action is finally returning to the Classic Silver sector as a trio of popular entries are debuting modestly higher this report. Grant, Lynchburg and Robinson-Arkansas are each caught traveling up a rung in Gem. Classic Gold retains vitality, yet the perceived scarcest of the 11-piece installment, the 1905 Lewis & Clark, discovers lower territory as MS66 examples drift to \$27K.

TYPE: Obsolete Type coins are almost always a great attraction for hobbyists. Not only in regards to numismatics, but for a time and place they hold in American history. These living legends seek out representatives from the Civil War era as Flying Eagle & Copper-Nickel Indian Cents are climbing in Circ. Also on the move are Two Cent Pieces, which incidentally, were the first coin to bear the motto "In God We Trust."

GOLD: As yellow fever eases its grip, the resulting rollback for common date Double Eagles in Circ. follows. Yet those in Choice and better continue to rack up gains as demand for glittering spot free examples excels. Leading the galaxy of star performers we observe the likes of the popular \$5 Indians and \$3 Princesses, each powering to an impressive \$16K in MS65.

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCGS, NCI, ANACS, NGC, and any other services may not conform to the grading standards as interpreted by the dealer or designer whose bid is represented within. Therefore, a specific coin could be worth more or less than the listed bid price. For listed Bid prices of coins certified by ANACS, NCI, PCGS, and NGC, please refer to the Certified Coin Dealer newsletter.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark—these bring lower prices; "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or "put together" bring lower prices. Gem full strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT: Mercury & Walker singles are in the CDN.

BALTIMORE AUCTIONS NAB \$20 MILLION

\$10,000 FOR DISCOVERY OF SACAGAWEA ERROR

The Market in Depth

This Week's Market

Baltimore was the center of the numismatic world as the Expo generally brought excellent reviews. Many of the dealers we spoke with said the show exceeded their expectations even though the precious metals softened from their previously seen lofty levels. Some even told us that the show got stronger each day with Saturday being especially active and lucrative. There was a lot of wholesale business taking place on the bourse as dealers tried to tie up some loose ends before the holiday season officially begins. Trades for better quality material took place even before dealer set-up. A dealer told us that he knew his show was a success after selling \$100,000 in material to another dealer prior to the Expo's beginning. Buying was a lot tougher for this dealer, but on opening day he was able to find an attractive PCGS AU58 1837 \$2½ Classic Head for \$3,600 and bought it because of its originality and "look."

All too often we hear that dealers are unhappy with the selection of material available to them at coin shows. They believe that there is just not enough original and attractively toned coins to choose from. Still, the nice coins were readily selling in Maryland for very strong money. Since quality is commanding exceptional prices today, only those willing to adjust to this reality are capable of regularly trading on the bourse with success. One dealer specializing in Commemoratives said that he is seeing life returning to classic Silver Commems. Customers are showing renewed interest, and one dealer—who only three months ago had no interest in Commems—is now willing to add some to his inventory. He said that he sold a group of 12 Gem Commems to another dealer that included a PCGS MS65 Lafayette Dollar and an NGC MS67 Elgin for \$15,000. Quality Type and Morgan Dollars were heavily sought after in Baltimore as well.

PCGS has authenticated and certified the first Sacagawea Dollar with Edge Lettering that was intended solely for the Presidential Dollar series. The submitter, who claimed to have found this discovery piece in his pocket change, will receive the promised \$10,000 from the grading service as a finder's fee. Fittingly, the 2007 specimen was struck at the Denver Mint, considering the rewardee is

from Colorado. Keep in mind, PCGS still has \$50K on the table for anyone who can solve the spotting problem that occurs with American Silver Eagles.

Stack's Amherst & Waccabuc Collections sale in Baltimore, November 13-14, realized \$10.3 million. The November 2007 Baltimore Auction by Bowers and Merena claimed \$9.5 million, November 15-17.

MERCURY DIMES: Regardless of the season, Merc fanciers seem to always have a growing and appreciative paying audience. Not surprisingly, supporting Bids remain in the fold for most rarities and frosty white Full Banded wonders. Legions of buyers will attempt to oblige the curtain call, making what maneuvers necessary to obtain top tier examples for neglected inventories and want lists.

WALKING LIBERTY HALVES: Walker aficionados certainly have much to be thankful for. As this lovely series continues to beat a convincing path towards early rarities and scarcer entries, that pronounced bounce in their step follows to the still captivating short-set. Buyers are lined up for volumes of examples in Choice and better.

DOLLARS: Morgan magic seems to be casting its spell as many popular and scarcer dates are under pressure and climbing in the perceived value laden MS64 column. Leading the calculating salvo is the tough to find New Orleans issue of 1897 powering ahead with an impressive \$800 advance to \$11,800. With a combined PCGS/NGC community of 60 in this grade, for most collectors, a pleasing MS64 will satisfy more than adequately. This is especially true when you consider the price differential for one of the 21 achieving a loftier numeric moniker. DMPLs reflect the spotlight as over 2 dozen of these conditional rarities bound upward. Peace Dollars maintain muster as a dozen of the popular ensemble embark on the high road in MS64-MS65, as the inaugural 1921 tops \$1,800 in Gem.

PROOF SETS AND MINT SETS: Proof Sets are always popular stops for gift giving. With so many that are still available for under \$10, these are a great place to start a collection. A pair is on the move as the 1970S Set is topping \$7.50 and the popular Bicentennial 1976 40% Silver issue claims \$13.50. Mint Sets, though quiet, are aroused with supporting Bids.

COMMEMORATIVES: Perhaps the holiday rush is finally taking a shine to the Classic Silver entourage. Yet regardless of the season, Silver Commems have something to be grateful for as the wholesale retreat has apparently all but stopped, with buyers beginning to nose around in earnest for eye-appealing specimens. Classic Gold, though a bit more stable of late, reveals a trio, including the 1905 Lewis & Clark, easing back farther down the trail in MS66.

TYPE: Type is a welcome guest anytime, yet now, as the end of the year dash is in full swing, dealers are stepping up the invitation process. With long neglected want lists in hand, buyers will be on the stump in hopes of securing not only early federal Copper and Silver Gems but much other material such as the ever popular Type I Buffalo Nickels in Circ, for the newly indoctrinated.

GOLD: Perhaps not much of a revelation at all, with Gold Spot drifting back further, the usual casualties for the bullion sensitive have succumbed. Yet irrespective of their intrinsic shortcomings, scarcer Gold Type in MS63 and better is awash with gains. Leading the assault are the \$3 Princesses and \$5 Indians, each in step with a \$200 gain in Gem.

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCGS, NCI, ANACS, NGC, and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose bid is represented within. Therefore, a specific coin could be worth more or less than the listed Bid price. ...a Friday morning report on the Coin Market

MARKET HOT IN AUTUMN GOLD RETURNS TO \$800 PERCH

The Market in Depth

November is concluding with the rare coin market in excellent shape. Demand is quite strong, especially for those pieces having something extra to offer. It is simply not enough in today's market to buy or sell a coin that has a specific grade given by a particular grading service. No, today we see that dealers are examining slabbed coins more closely to establish where within a grade they reside. An MS64 is not just an MS64 when it has more eye appeal than the run-of-the-mill example. Dealers are willing to pay a premium for specimens offering an exceptional strike, blazing white luster or attractive, original toning. Of course, such scrutiny is by no means new to numismatics, but it has taken on increased significance lately as certified coins identified as being of premium quality by CAC begin to hit the marketplace. Substantially higher dealer-to-dealer **sight-unseen** Bids are just beginning to appear for these stickered slabs with many dealers eager to acquire and/or make this new product. While selling such PQ treasures is occurring with little difficulty, the same can't be said on the buying side. Many dealers are attempting to purchase issues of similar quality, but they tell us over and over that there has been, and continues to be, an acute shortage of fresh material available. Not surprisingly, restocking inventories and finding neat coins for customers have been difficult. As a result, competition among dealers has increased significantly, as they battle one another for collector coveted coins on the bourse and at public auction, raising prices in the process, of course.

Gold bullion continues its ascent towards a record-breaking level as it again rose above the \$800 per ounce plateau, and is now at \$813.70. This is down from its remarkable peak earlier this month of \$841.75, nearly hitting a 28-year-high, but keep in mind that Gold's current performance is still astonishing. Dealers reported shortages over the Thanksgiving weekend after Friday's Spot surge. Such bullion products as American Eagles and Canadian Maple Leafs were running low in the wake of this exceptional demand. This resulted in a brief run-up in premiums with dealers paying as much as \$8 above Gold Spot for Krugerands. And don't forget that Silver is extremely strong as well, as it trades in the mid \$14 per ounce level. The overall rare coin market has clearly benefited from higher precious metal prices, for both Gold and Silver examples, with analysts forecasting much higher levels to come. It's no surprise, then, that optimism is certainly in place as the Houston Money Show and Heritage Signature Sale are on the way, beginning November 29 in Texas. This optimism, combined with determination, will certainly help dealers take full advantage of the upcoming opportunity to capture those much needed gems their customers are so passionately demanding.

This Week's Market

CENTS THIRU HALVES: Once again, vintage Lincoln Rolls are blistering hot. Buyers just can't locate enough early material, yet we also notice an increase tagging several from the eighties. State Quarters are a bit mixed, but for those wanting an instant collection, one wholesaler is offering a complete P-D 90-Bag Set for \$122,750.

MERCURY DIMES: Mercs retain positive bias as a bevy of buyers make their presence known. Slightly better dates in MS60 and higher are getting the nod this report. On the receiving end of a modest boost, a handful from the late 30s on inch higher, led by the 1937D's unpretentious triple Bid jump and anchored by the 1945S Micro's slight rise in Choice.

WALKING LIBERTY HALVES: Walkers are shuffling along to an upbeat tune as the popular short-set continues to shine. As the spotlight tracks a quartet in MS65, the scarcer 1944S takes the lead, topping \$390. Commoners in Gem get the curtain call, too, as the ante rolls to \$120 for frosty white players.

DOLLARS: Better date Morgans are always in vogue, and as over 3 dozen plus signs are engaging scarcer entries, their strength is not a question. Take a look as the unquestionable King 1893S is courting an impressive \$5K advance, securing a powerful \$115K Bid in MS63. Keep an eye on the noble and underappreciated 1895O, too, as this rare prince of a coin in Mint State 60 captures a solid \$900 increase, on its way to \$13,700. Peace Dollars maintain their watch as the ensemble remains fortified with faithful followers.

PROOF SETS AND MINT SETS: As an influx of festive giving drums up some action, buyers seem to be taking another look at the Proof Set segment. Conforming Bids surround many here with only a few escaping with minor losses. Mint Sets appear to be following the same path as the overall optimistic aroma permeates this sector.

COMMEMORATIVES: This slice of numismatic Americana, especially that which embodies Classic Silvers, has many enthusiasts. Now, as the holiday bells begin to toll in earnest, we observe growing support for many of these low mintage historic mementos at or near present levels. Classic Gold, which has had its share of growing pains, is beginning to shine, too. The diminutive Pan-Pac Gold Dollars are desired in quantity as XF examples rise to \$475 while the big brother Pan-Pac \$50 slug duo find clamoring masses in virtually all grades.

TYPE: As dealers carefully check their wish lists, the buzz is still evident for vintage and rare Type. One of the keys is the one year Type 1796 Small Eagle Quarter. With a hike of over 12%, Bid for a Good example has soared to \$7,750. Of course with an original mintage of a mere 6,146 and a total of 451 certified in all grades by PCGS/NGC, it is highly plausible that perhaps less than 10% of the inaugural output exists in all collectable grades. Proof Type confirms Indian Cents are still on the warpath in all color combos, and Buffalo Nickels are roving higher in CH PR and better.

GOLD: The golden drum can't be silenced and has again pounded back over the \$800 level, up \$37 from last week. Of course the bullion sensitive are obliging with a rash of gains, but more importantly, Better Gold Type continues to prosper. As an example, MS63 Type 1 Dollars have surged over 62% since January 5, 2007, now claiming an impressive \$1,135 Bid.

The weekly COIN DEALER newsletter (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins **sight-unseen**. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified **sight-unseen** market, which already include consideration of certification costs. Bids for a **sight-unseen** raw coin may be higher or lower than for a **sight-unseen** certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins by other dealers or grading services, such as PCGS, NGC, ANACS, and any other services may not conform to the grading standards as indicated by the dealer or dealers whose bid is represented within. Therefore, a specific coin could be worth more or less than the listed Bid price. For Bid prices of coins certified by ANACS, NCI, PCGS, and NGC, please refer to the Certified Coin Dealer newsletter.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark—these bring lower prices, "gem, full steps" rolls (when available) bring higher prices. In the Mercury series, "gem, full bands" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or "put together" bring lower prices. Great full strike Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT. Mercury & Walker singles are in the CDN.

Reverse Graffiti

In addition to its world-class conservation service, NCS provides comprehensive certification services for coins with irreversible detrimental surface conditions (commonly known as "problem" or "no-grade" coins). All coins encapsulated by NCS are authenticated and guaranteed to be genuine. At your request, coins can be described on the holder as Genuine, or given a Detail's grade.

Any item submitted for NCS encapsulation that is suitable for non-problem coin grading will be transferred to NGC. Extensive variety and error attribution services are also available.

For more information on NCS Certification and Encapsulation, please visit www.NCScoin.com.

Single copy price \$4.00 Vol. XLV No. 49 December 7, 2007 ...a Friday morning report on the Coin Market

HIGHER LEVELS FOR THE HOLIDAYS NEARLY \$5 MILLION MEETS HOUSTON GAVEL

The Market in Depth

The Money Show of the Southwest in Houston, was similar to recently held conventions in that dealers were enthusiastically seeking stand-out material, including those specimens with a story or pedigree. Such rare coins are being taken off the market at an ever-increasing rate, resulting in skyrocketing prices. As this trend will most likely continue into next year, many dealers will primarily utilize the auction venue to acquire high quality offerings, focusing on old-time collections that feature original and “not played with” gems.

Gold bullion was certainly weaker during the show, trading below \$800 per ounce, but that didn't quell the strong demand for Gold coins in Texas. Most analysts believe the bull market for metals is still intact as many major investment traders have sold some of their positions simply to lock-in profits for 2007. The fervent search for quality numismatic Gold goes on, and buyers are paying top dollar to secure these coveted coins whenever opportunities arise. Indeed, premium examples boasting attractive, problem-free surfaces with original skin are selling at an incredible rate. This has been the case for most Gold Type of all denominations. Early and dated Gold are realizing super strong money as well. For example, in one dealer-to-dealer transaction, a PCGS AU55 1875 \$2.50 Liberty changed hands on the bourse in Houston for \$16,500.

Demand continues to chase original Proof and Mint State Type this week. Early material from the Flowing Hair and Bust designs, especially one- and two-year Type, is highly sought-after. Popularity for this coinage has been increasing throughout the year, and dealers have been unable to keep up with their customer wish lists. Many buyers are looking for coins that possess attractive toning, but the exceptionally high asking prices may be dampening this demand.

The U.S. Mint recently announced plans to release a 2-coin Commemorative Set celebrating the 10th anniversary of the American Eagle Platinum coin program. Beginning Dec. 13, a total of 30,000 sets will go on sale for \$1,950. Restrictions on the number of purchases exist with only 1 set available per household for the first week of release. Pairing with one Proof specimen, the first ever Enhanced

Reverse Proof Platinum coin will complete the duo of \$50 half ounce anniversary pieces. The success of the Mint's Silver and Gold Sets has set a high bar for Platinum to hurdle. The 3-piece Silver Set was originally offered at \$100 before climbing as high as \$550 in the after market. These are now trading in the \$370-\$390 range. The Gold Set initially sold for \$2,610, peaked at \$5,100, and is now at \$4,600.

The 2007 November Houston Signature Coin Auction by Heritage realized over \$4.8 million. We have listed a few of the many highlights from this sale.

This Week's Market

MERCURY DIMES: Ms. Winged Liberty's faction of eager followers certainly remains faithful to this attractive series. Who can really blame them? Whether it's a Full Banded commoner in Gem for around \$40 or a desirable five-figure rarity, there is something within everyone's budget.

WALKING LIBERTY HALVES: Walkers are one of the ongoing success stories of the 2007 crusade. Slowly, and then aggressively, demand for the tough middle years entries has spawned the passion for the short-set which is still thriving and giving buyers fits. As a point of reference, since March 2, 2007, the collector's favorite, 1941-47 issue, has put together over a 10% advance in MS65.

DOLLARS: Morgan magic continues to foster excitement with its legions of ardent enthusiasts. As over 2 dozen scarcer Branch Mint players are stoking higher offers in MS60-MS65, the Morgan express looks to keep things warm as we approach the winter solstice. DMPLs remain under pressure too, as a cluster of 20th century examples reflects on advances. Peace Dollars maintain their positive stance as solid footing follows most, with generics climbing in Choice and MS66.

PROOF SETS AND MINT SETS: Other than the popular early entries, most Proof Sets seem to be on holiday as buyers appear well-stocked with later issues and are hesitant to acquire any at present. Mint Sets really have nothing to carol about either, yet quiet stability is blanketing several.

COMMEMORATIVES: This somewhat maligned ensemble has slowly but surely righted its ship as positive posturing is finally in evidence. Although plus signs have been at a premium, a few Classic Silver installments have cashed in, including the popular Antietam and Bridgeport, each advancing in MS60. The Gold counterparts are also continuing to bask in the more assertive buyers' glow as the popular Sesquicentennial Quarter Eagle takes flight to the affirmative tune of \$2,700 in Gem. Dolley Madison First Spouse \$10 issues are still available from the Mint with dealers offering to pay a \$30 premium to secure additional pieces.

TYPE: Scarce and rare federal issues continue to sparkle brightly as well-known buyers light up the Bidding columns just in time for the holiday rush. Nearly all early Silver denominations in Circ through Mint State are in need as powerful advances chase Flowing Hair and Draped Bust material through the roof. Proof Type confirms further heat is being applied to various Matte Proof Lincoln Cent color combos as 65RB specimens claim \$630.

GOLD: Although Gold maintains sturdy resolve just over the \$800 per ounce benchmark, the volatility in the softest of precious metals has some buyers more than a tad uneasy. Yet as a host of the more bullion sensitive issues roll back slightly, select Gold Type in loftier grades is still escalating. Leading the volley are the \$2½ Libs as those approaching near perfection in MS67 top an impressive \$5,500.

The weekly COIN DEALER newsletter (the Greysheet) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or “raw” (uncertified), but the grading MUST ADHERE to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified sight-unseen market, which already include consideration of certification costs. Bids for a sight-seen “raw” coin may be higher or lower than for a sight-unseen certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins graded by other dealers or grading services, such as PCGS, NCI, ANACS, NGC, and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose bid is represented within. Therefore, a specific coin could be worth more or less than the listed bid price. For listed Bid prices of coins certified by ANACS, NCI, PCGS, and NGC, please refer to the Certified Coin Dealer newsletter.

RALLY CONTINUES AS YEAR CLOSES

KEY DATE DEMAND EXCEEDS SUPPLY

The Market in Depth

With the holiday season quickly approaching, many dealers have already curtailed much of their business activities to begin extended winter vacations. By most accounts, 2007 has been very prosperous, and this feeling of success should add to the joy of a well-deserved respite. Demand for rare coins has been robust throughout the year, and most believe this trend should continue in 2008. One reason for such an optimistic outlook is the significant expansion of the important collector base. It is certainly necessary for the continued success and longevity of the current bull market to have younger collectors participating in ever-growing numbers. In addition to the bolstering effect of collector growth, precious metal strength in 2007 cannot be ignored as a significant factor in the overall current demand for rare coins. Gold has been amazing this year, with trading above \$800 for longer than any period in history. Platinum and Silver have also performed remarkably, with Platinum reaching never-before seen levels while Silver is up 15% for the year. Importantly, the conditions that exist in the economy that foster strong prices for Platinum, Gold and Silver are the same conditions that are beneficial for the rare coin market.

Many areas of the market have performed admirably in 2007, with the key dates being one of the most active. Keys tend to be popular as very few are available, and naturally, interest gravitates towards scarcer issues. Dealers have not been able to keep a good supply of key dates, and they have seen their inventories become further depleted. Though these coins have been offered at much higher prices lately, that hasn't deterred eager collectors from securing them as soon as they become available. It hasn't been easy for dealers to locate many nice 1914D Lincoln Cents or 1916D Mercs, for example. The search involves visiting showcase after showcase, often finding only a dwindling selection at higher prices. Many of the key dates are nearly impossible to find and buy, but that is the nature of this business. Some clients are simply not satisfied with one or two coins; they want 10 or more keys, and they push hard to get them, resulting in greater pressure on price. Demand should remain strong in this segment, not only as a result of the obvious desire for rarity, but also because today's collectors have greater access to population figures of the keys by grade. Such information serves to increase one's understanding of the true rarity of a particular example, assisting collectors in making sound, prudent purchasing decisions. Another helper in the acquisition of the scarce and rare are those slabs adorning the green CAC seal of approval. These coins are deemed to be of premium quality for the grade and are becoming the first choice for many collectors. Sight-Unseen dealer-to-dealer Bids and Asks for CAC stickered slabs are just beginning to appear on the electronic dealer trading networks. Many dealers remain on the fence in regards to the CAC concept, partly because they are not sure exactly how their businesses will be affected.

This Week's Market

CENTS TIIRU HALVES: Several better date Washington Quarter rolls from the 1940s and 50s are easing back a bit as are sundry State Quarter editions. Attempting to combat this, various Memorial Cent rolls are on the upswing by as much as 10%.

MERCURY DIMES: Buyers maintain their vigil, waiting patiently for the much needed scarcities and rarities. Yet in order to spring a few from hiding, some dealers are enticing several with increased offers. One of the keys, 1921D, is driving higher in Choice, topping \$1,325, as is the better date 1928D, climbing up a notch to \$275, also in MS63.

WALKING LIBERTY HALVES: What started out in 2007 at a crawl's pace for Walkers is turning into a bit of a foot race as buyers attempt to stock up on fully struck icy white examples. Bid for generic Gems holds firm at \$120, and demand for nearly all areas reveals willing buyers.

DOLLARS: Morgans maintain a powerful presence as dealers are once again zeroing in on scarce and rare dates within this formidable assembly. Take a look as the tougher next to last year Carson City issue of 1892 tops \$7,250 in Gem, while the underrated 1897O plows ahead in MS64 to the tune of \$12,500. All said and done, nearly 3 dozen plus signs are lighting things up like a Christmas tree, hastening the pulse of this again resurgent series. Cascading down in a flurry of action, over 80 DMPLs are also blanketed with advances. Peace Dollars are enjoying the season with much fanfare as hard to find MS66 commoners are topping \$590, and the scarce 1935S is bounding to \$2,100 in like grade.

PROOF SETS AND MINT SETS: Not all Proof Sets are left out in the cold as a pair musters minor motivation led by the 2001S Silver Set, inching to \$123 Bid. Mints Sets strengthen their cause as the majority herald positive flavor, too.

COMMEMORATIVES: Although not a ball of fire, the Classic Silver disciples are warming up a bit as winter nears. In fact, many buyers are feeling the heat as PQ pieces are being carefully tucked away for inventory and for quality conscious collectors clamoring for these low mintage treasures. Classic Gold, again, sports keen interest for the majority in Very Choice and Gem as the \$2½ Sesqui flutters to \$1,225 in MS64.

TYPE: Early federal rarities will take deep pockets and due diligence to acquire as Type is flaunting its Neiman Marcus like catalog of rarities just in time for some heavy hitters' wish lists. We note coveted Flowing Hair Halves in Gem are fetching \$450K, and the King of Type—Draped Bust Sm Eagle Halves—are pounding out an amazing, yet justifiable advance to \$325K Bid in MS63. For those on a tad more restrictive budget, the always in demand one-year Type 1796 Quarter motors ahead in a trio of Circ grades as Good examples now command \$8,250.

GOLD: The yellow metal appears to have no intentions of relinquishing its hard fought prominence in the \$800 club, and each trading day is becoming more of the accepted norm in this record territory. Expect the fight for Choice and better Gold Type to continue, as buyers cherry pick for spot free specimens, with No Motto \$5 Libs racing to \$9K in MS64, and Eagle counterparts muscling ahead with a \$1K advance to \$21K in like grade.

The weekly COIN DEALER newsletter (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "raw" (uncertified), but the grading **MUST ADHERE** to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally—they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified sight-unseen market, which already include consideration of certification costs. Bids for a sight-seen raw coin may be higher or lower than for a sight-unseen certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder—but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction, you may also commission a Dealer for your purchases.

The Bid prices listed within represent what individual dealers are willing to pay for coins that meet their particular grading criteria. Coins may be graded by other dealers or grading services, such as PCGS, NCI, ANACS, NGC, and any other services may not conform to the grading standards as interpreted by the dealer or dealers whose bid is represented within. Therefore, a specific coin could be worth more or less than the listed Bid price. For Bid prices of coins certified by ANACS, NCI, PCGS, and NGC, please refer to the *Certified Coin Dealer newsletter*.

BU ROLLS

The following prices are for typical rolls of the dates involved. In the Lincoln series, spotted or otherwise inferior rolls are worth less than listed prices and "gem" rolls often bring more. In the Jefferson series, some of the rolls in the late 50's tend to be dark—these bring lower prices. "gem, full steps" rolls (when available) bring higher prices. In the Mercury series "gem, full bands" rolls are worth more than listed prices—particularly the pre-1941 issues. Washington rolls—dull or "pat" together—bring lower prices. Gem full bands Walking Liberty rolls (particularly the S-mint issues) are worth more than listed prices. MS-65 singles may be found in the MONTHLY SUPPLEMENT; Mercury & Walker singles are in the CDN.

...a Friday morning report on the Coin Market

A GREAT YEAR IN REVIEW

FINAL ISSUE OF 2007—HAPPY HOLIDAYS!

The Market in Depth

This year has certainly been exciting, with amazing auction results, significant market changes, huge coin sales and Gold fever. January set the pace as the auctions surrounding the '07 FUN show brought in a record \$85 million. Florida made news again shortly after where thousands of "Godless" Dollars were discovered, with the national news media reporting the story. March saw continued action with the \$1.73 million sale of a PCGS MS67 1920S \$10 Indian during the ANA show. Gold Spot hit an 11-month high, reaching \$691 in April. Finishing off the month, an astounding sale occurred: The Eliasberg 1913 Liberty Nickel, captured for \$5 million.

As summer arrived, the record-breaking sale of a 1792 Half Disme for \$1.5 million took place. This was followed by the finest known PCGS PR66 1894S Barber Dime, which changed hands for nearly \$2 million. July concluded with details released regarding the upcoming CAC sticker service. John Albanese made his intentions known by outlining his plan of applying approval stickers identifying coins deemed premium quality for the grade. This announcement caused quite a stir, and the dust has yet to settle. To finish off a scorching summer, another finest known specimen sold for big money. In this case, over \$3 million was exchanged for an Ultra-High Relief 1907 Saint-Gaudens, graded PCGS PR69.

September was a golden month to be sure as Spot broke the \$700 threshold. Gold Type reaped immediate benefits with increases virtually across-the-board. Trading coins online saw a wrinkle at mid-month as eBay began changing its policies regarding auctions of raw and certified coins. Sheldon numbers were disallowed in the titles and descriptions of raw coins, and material not slabbed by PCGS, NGC, ANACS or ICG was considered raw. By the end of the month, Gold had remained above \$700 for longer than any other time in history. Fittingly, a 1921 \$20 Saint-Gaudens graded PCGS MS65 sold for over \$1 million at the Goldberg Pre-Long Beach Auction. Shortly thereafter, two Eagles sold: A plain 4 1804 Ultra Cameo, graded PR65 by NGC, for \$5 million, and a PCGS PR65 1838 Eagle for \$1.7 million, to the same buyer. October introduced new rules as well when CCE announced its "Big Generic Market", which only allows sight-unseen Bidding for common Morgan and Peace Dollars, as well as generic \$20 Saints and Libs. David Hall recently augmented the rules to allow Bidding on Double Eagles with and without spots, as well as cartwheels with and without toning. As fall progressed, a rise in Gold Spot continued to uplift profits. That magic \$800 per ounce level materialized on Halloween, dramatically increasing calls and visits to coin shops, and potentially boosting the all-important collector base.

All eyes will be focused on the upcoming FUN show in Orlando, scheduled for January 10-13. Superior will host its auction January 5-6; Stack's on January 7; Bowers & Merena, January 8 and Heritage, January 9-12. Dealers will be quite busy attending these sales as their need for material is of primary importance. Most are optimistic for the new year, but there are some lingering concerns. Much will depend on the continued overall strength of the economy and precious metal performance as well.

This is the final issue of the *Coin Dealer Newsletter* for 2007; the next edition will be published January 4, 2008. We wish you and your family a happy and healthy holiday season.

The weekly COIN DEALER newsletter (the *Greysheet*) reports the national Dealer-to-Dealer wholesale coin market, monitoring all possible transactions and offers to buy and sell coins sight-seen. The coins may be certified or "raw" (uncertified), but the grading MUST ADHERE to the current leading standard. Prices reported derive from the highest legitimate Bids and lowest legitimate Asks seen nationally; they do not necessarily reflect the levels at which any particular dealer might offer to buy or sell that coin. Bids reported consider activity in the certified sight-unseen market, which already include consideration of certification costs. Bids for a sight-seen "raw" coin may be higher or lower than for a sight-unseen certified coin due to current market conditions. The CDN may not change Bid due to the bidding adjustments of the high bidder, but will be strongly influenced by Buys which are higher or Sells which are lower than current Bid/Ask levels. INVESTOR/COLLECTOR NOTE: The prices in this newsletter are from Dealer-to-Dealer transactions; you should expect to pay a premium above Ask when purchasing coins in a retail transaction; you may also commission a Dealer for your purchases.

MERCURY DIMES: As the novice suitor courts the Circ and frosty white commoners, dealers are attempting to quell the well-heeled enthusiast's banter for a bevy of better issues.

WALKING LIBERTY HALVES: Walkers strengthening exercises throughout 2007 have paid dividends for the most part. Early issues and the prime rarities such as the 1919D and the 1921 trio continue to command respect and deep pockets when pleasing examples are offered, as do the scarcer entries from the 30's. Although enjoying a lengthy and positive run, a handful from the resurgent yet heavily promoted short-set are spied easing back a bit in Gem.

DOLLARS: Silver Dollars have long been a favorite for holiday giving, so it's not surprising that at this active time of year these hefty cartwheels remain a shining star. In an encore performance, the tough 1897O escalates in MS64 topping \$12,600. Peace Dollars are resplendent with support too, as the key 1928 carols in with an advance in MS65.

PROOF SETS AND MINT SETS: Although a couple of Silver entries have gotten a slight boost from calculating buyers, most Proof Sets maintain the status quo, as several lower priced issues are sliding back. Mint Sets are a mixed bag, as the majority requires a jump start to get going this early winter.

COMMEMORATIVES: The popular Classic Silver Commems appear to have been regrouping their forces recently. It has been highly evident those issues falling on hard times have gone from a veritable flood to a trickle. Appreciative collectors and not so hesitant buyers are now attempting to capture many of those eye-appealing "original skinned" coins at or near Bid. The Classic Gold ensemble also continues to purvey positive tidings as buyers are highly visible firming up offers for these low mintage jewels in MS63 and better. Dealers are paying a 10% plus premium for both the Platinum Anniversary Sets and the Madison 1st Spouse Gold coins as the U.S. Mint is still enforcing a 1 per household limit for this material.

TYPE: As the collector base continues its expansion, we hear the jingling of higher offers as buyers try to conjure up enough quality Type to satisfy the masses. As the door closes on another fruitful campaign, eager buyers are canvassing for Twenty Cent pieces as the short-lived series is making a run for it in Gem, with MS65 examples racing to \$4,300. Liberty Seated Halves are seen rising in MS65 as both No Motto and Motto varieties claim \$4,500 and \$3,300 respectively. Barber Halves are a shave higher in MS65 taking \$2,700 Bid. Trade Dollars accelerate to \$8,400 in MS65. Proof Type features Liberty Seated Dollars With Motto topping \$9,600 in PR65.

GOLD: Notwithstanding the minor volatility, this segment of the market couldn't be much hotter right now. In the face of minor Midas withdrawal pains, the bullion sensitive and others are rolling back in moderation. Irrespective of this, and not wanting to play the grinch, we note the diminutive and hard to come by Type II Gold Dollars are dashing away in MS64 with a \$400 boost claiming \$15,400. \$2½ Libs are also checking their list as MS67's top \$6K.

FIRSTSTRIKE®

COMMIT TO YOUR PCGS FIRST STRIKES *TODAY*. PICK THEM UP IN *MARCH*.

Introducing a *better* way to finance modern gold and silver... with an industry best 3.8% lease rate

1. Select how many gold and silver eagles or gold buffalos you want to commit to. Minimum commitments are 100 oz for gold and 5,000 oz for silver. The coins can be held until the end of 2008.
2. Pay only the estimated coin premium up front (mint cost + 0.6% on gold, mint cost + 11 cents on silver).
3. Instruct PCGS when and how many coins you want graded.
4. When you are ready for delivery, notify Minshull Trading and price the coins on the next business day's London PM fix. Minimum order is 25 oz of gold or 500 oz of silver. Pricing on gold coins uses Fix + 50 cents/oz for spot value.
5. Wire Minshull Trading within three days, or obtain financing from Collectors Finance Corporation.
6. The coins are released at PCGS! You are responsible for all shipping arrangements and fees from this point. You can schedule to pick up coins from January until the end of 2008. No in and out fees!

Call Minshull Trading (310) 544-4400

Ask Lee, William, or Balazs for further details. For pricing on immediate delivery, please call.

All grading charges are billed directly by PCGS to customer. No delivery charges for coins delivered to PCGS. Financing is also available for **platinum** coins. Lease rate on platinum coins subject to market rates, updated monthly. Orders must be received by Minshull Trading on or before January 15, 2008 to qualify for the first-strike guarantee. Offer may be altered or cancelled by Minshull Trading or PCGS at any time.
